OPUS MONEY PLUS FUND

MANAGER'S REPORT

As at 31 December 2024, the Fund was 78.92% invested while 21.08% was held in cash. For the period 01.07.2024 to 31.12.2024, the Fund had registered a return of 1.74% as compared to the benchmark return of 1.19% which was the accreted value of the Maybank 1-Month Fixed Deposit Rate. Hence, the Fund outperformed the benchmark by 0.55%. Since its inception, the Fund has outperformed the benchmark by 4.95% with returns of 19.71% compared to the benchmark of 14.76%. The Fund had a duration of 9.4 months. The average rating of the portfolio was AA2.

During the financial period under review, the Fund has declared a total gross distribution of RM0.0169 per unit to unitholders. We believe the Fund has achieved its objective of providing investors with higher return than Maybank 1-Month Fixed Deposit Rate, while providing liquidity and preserving capital.

Market Review

During the fourth quarter of 2024 (Q4 2024), there were several significant events that impacted global markets one of them being the conclusion of the U.S. elections with Donald Trump's victory and the Republican sweep of both legislative houses. President-elect Trump has "trumpeted" various protectionist policies which entails trade hostilities and lower taxes, potentially leading to wider fiscal deficits and inflationary pressures.

While the appointment of Scott Bessent as US treasury secretary moderated some of the uncertainties surrounding Trump's global wide tariffs and widening fiscal deficit policies, markets remained on edge as current progress on inflation slowed down during the quarter. Core personal consumption expenditure (PCE) index, the Fed's preferred inflation gauge, have been hovering around between 2.7% and 2.8% YoY since Jul'24 as the economy remained supported by strong consumer spending and a robust labour market. The U.S. economy continued its moderate expansion, with gross domestic product (GDP) growth for the third quarter posted an annualized rate of 3.1%.

OPUS MONEY PLUS FUND

MANAGER'S REPORT (CONTINUED)

Market Review (Continued)

In light of this, the Federal Open Market Committee (FOMC) cut its interest rate by 25 basis points (bps) to 4.25% - 4.50% in Dec'24 as widely anticipated by the market. However, the updated dot plot indicated a much shallower rate cut path next year, with the number of cuts expected falling from four to two. This sets the upper bound of the interest rate at 4.00% by the end of 2025. US treasuries (UST) yields jumped as future cuts were priced out, with the 2-year and 10-year UST yields closing at 4.35% and 4.51%, respectively (compared to 4.22% and 4.39% pre-FOMC).

There was an overall sell down in the bond market during the last quarter of 2024, with yields rising 60 – 83 basis points (bps) across the curve. The yield curve steepened as long-term yields jumped with investors anticipating inflation to remain high. The 2-year UST rose 60 bps to 4.24% while the 10-year UST closed the quarter at 4.57% (79 bps increase), resulting in a spread of 33bps at the end of 2024.

In the Eurozone, we saw the ECB cut rates twice during the fourth quarter of 2024, both by 25 bps as the central bank continue to combat slowing economic growth in the region. Inflation remains under control, with the ECB president Christine Lagarde reassuring that inflationary pressures have largely subsided and emphasized that the weaker economic outlook would be a downside risk to inflation. This indicates that the ECB will remain on its rate cut path in 2025 to stimulate economic growth. The Eurozone's manufacturing sector remained in the contractionary zone, with the latest Manufacturing PMI in Dec'24 registering at 45.2, its 21st consecutive monthly decline. Despite the relatively stable services sector (Oct'24: Expansion; Nov'24: Contraction; Dec'24: Expansion), growth risks have risen, with Trump's tariff policies still posing a potential headwind to growth in 2025.

China's economic policy in Q4 2024 focused on bolstering its economy through various stimulus measures. These measures included adjustments to monetary policy rates, support for the real estate and equity markets, and large fiscal packages. Despite these efforts, China's economic recovery remained rather gradual, with key economic data for November indicated slight improvements in the manufacturing sector and industrial production. Having deployed several stimulus measures to support its economy throughout the year, China is expected to just meet its growth target of around 5% in 2024.

In Malaysia, the 2025 Budget announcement in October saw a higher budget allocation of RM421 billion while maintaining fiscal consolidation, with fiscal deficit expected to decrease to 3.8% of GDP for 2025, from 4.3% expected for 2024 (2023: 5%). The budget is perceived as mildly positive for the bond market, due to the anticipated reduction in the net government bond supply.

The Malaysian economy continued to demonstrate resilience, with third quarter GDP exceeding expectations at 5.3%, driven by robust domestic consumption and a rebound in manufacturing and construction activities. Inflation remained subdued, with CPI hovering around 1.8% YoY for the last three months of 2024. Looking forward, inflation is expected to be higher in 2025 due to several factors such as the upcoming civil servant salary hike in Dec'24, the rationalization of the RON95 subsidy and the increase in base electricity tariff. Meanwhile trade balance continued to widen, as exports rose significantly, primarily attributed to strong demand for Electronics & Electrical (E&E) products and machinery appliances & parts, while imports grew at a slower rate. Future trade growth would continue to be supported by rising demand in the semiconductor space.

OPUS MONEY PLUS FUND

MANAGER'S REPORT (CONTINUED)

Market Review (Continued)

Despite the volatility of the UST, Malaysian Government Securities (MGS) yields were relatively muted during the quarter. The overall yield curve flattened, with yields ending between 0 to 15 bps higher. The quarter also saw the auction of the 10-year MGS being brought forward from November to replace the cancelled 3-year Government Investment Issues (GII) issuance. The bid to cover continues to be strong at 2.02x. Meanwhile the 2025 auction calendar which was recently released saw a total of 36 auctions scheduled, similar to 2024. There is, however, a slight change in auction tenors, with the longer tenors seeing a higher number of auctions next year. In contrast, the number of auctions for the 7-year and 10-year tenors fell to four and six respectively, compared to six and seven auctions recorded in 2024.

Market Outlook

We expect 2025 to be a relatively volatile year, with the Trump administration seeking to implement their protectionist policies which could dampen economic growth and impact labour markets. This in turn could lead the Fed to cut interest rates more than initially expected to prevent a significant rise in unemployment rates. Nonetheless, we note that monetary policy decisions would remain data dependent given ongoing economic uncertainty and market volatility.

Locally, improving trade performance is expected to sustain economic growth, as the electrical and electronics sector continue to benefit from the global tech cycle upturn. With inflation remaining under control coupled with a robust economy, we expect the Overnight Policy Rates (OPR) to remain steady at 3.00% for the time being.

OPUS MONEY PLUS FUND

MANAGER'S REPORT (CONTINUED)

Strategy

As the fund's focus is on capital preservation and liquidity, we will continue to invest in high quality, liquid and short dated securities with minimal risks.

Soft Commissions and Rebates

No soft commissions or rebates were received from any broker for the financial period under review.

Cross Trade

Cross trade transactions have been carried out during the reported period and the Investment Committee of the Fund has reviewed that such transactions were in the best interest of the Fund, transacted in the normal course of business at agreed terms and on a fair value basis.

State Affairs of the Fund

There is neither any significant change to the state affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the financial period under review.

OPUS MONEY PLUS FUND

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A Basis of preparation of the financial statements

The financial statements of the Fund are prepared under the historical cost convention and modified to include other bases of valuation as disclosed in other sections under significant accounting policies, and in compliance with Malaysian Financial Reporting Standards ("MFRSs") and International Financial Reporting Standards ("IFRSs").

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial period. It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note J.

- (a) During the current financial period, the Fund has adopted the following amendments to accounting standards (including the consequential amendments, if any):-

Amendments to MFRSs (Including The Consequential Amendments)
Amendments to MFRS 16: Lease Liability in a Sale and Leaseback
Amendments to MFRS 101: Classification of liabilities as Current or Non-current
Amendments to MFRS 101: Non-current liabilities with Covenants
Amendments to MFRS 107 and MFRS 7: Supplier Finance Arrangements

The adoption of the above amendments accounting standards (including the consequential amendments, if any) did not have any material impact of the Fund's financial statements.

- (b) The Fund has not applied in advance the following accounting standards (including the consequential amendments, if any) that have been issued by the Malaysian Accounting Standards Board ("MASB") but are not yet effective for the current financial year :-

MFRSs (Including The Consequential Amendments)	Effective Date
Amendments to MFRS 121: Lack of Exchangeability	1 January 2025
Amendments to MFRS 9 and MFRS 7: Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
Annual Improvements to MFRS Accounting Standards - Volume 11	1 January 2026
MFRS 18 Presentation and Disclosure in Financial Statements	1 January 2027

OPUS MONEY PLUS FUND

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

A Basis of preparation of the financial statements (continued)

MFRSs (Including The Consequential Amendments)	Effective Date
MFRS 19 Subsidiaries without Public Accountability Disclosure	1 January 2027
Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred

The adoption of the above accounting standards (including the consequential amendments, if any) is expected to have no material impact on the financial statements of the Fund upon its initial application.

B Income recognition

Interest income from deposits with licensed financial institutions and unquoted fixed income securities are recognised on an accrual basis using the effective interest method.

Realised gain and loss on sale of unquoted fixed income securities are measured by the difference between the net disposal proceeds and the carrying amounts of investment, calculated on the weighted average cost basis.

C Distribution

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the period in which it is approved for appropriation.

D Taxation

Current tax assets and liabilities are the expected amount of income tax recoverable or payable to the taxation authorities.

Current taxes are measured using tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period and are recognised in statement of comprehensive income except to the extent that the tax relates to items recognised outside statement of comprehensive income (either in other comprehensive income or directly in equity).

E Presentation and functional currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's presentation and functional currency.

OPUS MONEY PLUS FUND

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

F Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Fund has become a party to the contractual provisions of the instruments.

Financial instruments are classified as financial assets, financial liabilities or equity instruments in accordance with the substance of the contractual arrangement and their definitions in MFRS 132. Interest, dividends, gains and losses relating to a financial instrument classified as a liability are reported as an expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity.

Financial instruments are offset when the Fund has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

A financial instrument is recognised initially at its fair value. Transaction costs that are directly attributable to the acquisition or issue of the financial instrument (other than a financial instrument at fair value through profit or loss) are added to/deducted from the fair value on initial recognition, as appropriate. Transaction costs on the financial instrument at fair value through profit or loss are recognised immediately in profit or loss.

Financial instruments recognised in the statement of financial position are disclosed in the individual policy statement associated with each item.

Financial assets

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value (through profit or loss, or other comprehensive income), depending on the classification of the financial assets.

Debt instruments

(i) Amortised cost

The financial asset is held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset. When the asset has subsequently become credit-impaired, the interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset.

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

F Financial instruments (continued)

Financial assets (continued)

Debt instruments (continued)

(i) Amortised cost (continued)

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), excluding expected credit losses, through the expected life of the financial asset or a shorter period (where appropriate).

(ii) Fair value through other comprehensive income

The financial asset is held for both collecting contractual cash flows and selling the financial asset, where the asset's cash flows represent solely payments of principal and interest. Movements in the carrying amount are taken through other comprehensive income and accumulated in the fair value reserve, except for the recognition of impairment, interest income and foreign exchange difference which are recognised directly in profit or loss. Interest income is calculated using the effective interest rate method.

(iii) Fair value through profit or loss

All other financial assets that do not meet the criteria for amortised cost or fair value through other comprehensive income are measured at fair value through profit or loss.

Regular purchases and sales of financial assets are recognised on the trade date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value.

Unrealised gains or losses arising from changes in the fair value of the financial assets at 'fair value through profit or loss' category are recognised in the statement of comprehensive income in the financial period in which they arise.

F Financial instruments (continued)

Financial assets (continued)

Debt instruments (continued)

(iii) Fair value through profit or loss (continued)

Unquoted fixed income securities denominated in Ringgit Malaysia are revalued on a daily basis based on fair value prices quoted by a bond pricing agency (“BPA”) registered with the Securities Commission of Malaysia (“SC”). Where such quotations are not available or where the Manager is of the view that the price quoted by the BPA for a specified unquoted fixed income securities differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager:

- (i) Records its basis for using a non-BPA price;
- (ii) Obtain necessary internal approvals to use the non-BPA price; and
- (iii) Keeps an audit trail of all decisions and basis for adopting the market yield.

The Fund reclassifies debt instruments when and only when its business model for managing those assets change.

Financial liabilities

(i) Financial liabilities at fair value through profit or loss

Fair value through profit or loss category comprises financial liabilities that are either held for trading or are designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. The changes in fair value of these financial liabilities are recognised in profit or loss.

(ii) Other financial liabilities

Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

OPUS MONEY PLUS FUND

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

F Financial instruments (continued)

Financial liabilities (continued)

(ii) Other financial liabilities (continued)

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), through the expected life of the financial liability or a shorter period (where appropriate).

Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or when it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset measured at amortised cost, the difference between the carrying amount of the assets and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of a debt instrument classified as fair value through other comprehensive income, the cumulative gain and loss previously accumulated in the fair value reserve is reclassified from equity to profit or loss. In contrast, there is no subsequent reclassification of the fair value reserve to profit or loss following the derecognition of an equity investment

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

OPUS MONEY PLUS FUND

MATERIAL ACCOUNTING POLICY INFORMATION

FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

F Financial instruments (continued)

Impairment of financial assets

The Fund recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at fair value through other comprehensive income, the receivables, deposits with financial institutions and cash at bank.

The expected credit loss is estimated as the difference between all contractual cash flows that are due to the Fund in accordance with the contract and all the cash flows that the Fund expects to receive, discounted at the original effective interest rate.

The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument. The Fund always recognises lifetime expected credit losses for the receivables using the simplified approach. The expected credit losses on these financial assets are estimated using a provision matrix based on the Fund's historical credit loss experience and are adjusted for forward-looking information (including time value of money where appropriate).

For all other financial instruments, the Fund recognises lifetime expected credit losses when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Fund measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

The Fund recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at fair value through other comprehensive income, for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

G Cash and cash equivalents

Cash and cash equivalents comprise bank balances, deposits with licensed financial institutions, and short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value with original maturity periods of three months or less.

OPUS MONEY PLUS FUND

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

H Unitholders' capital

The unitholders' capital is classified as equity.

The Fund issues cancellable units, which are cancelled at the unitholder's option and are classified as equity. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's Net Asset Value ("NAV"). The outstanding units are carried at the redemption amount that is payable as at the date of the statement of financial position if the unitholder exercises the right to put the unit back to the Fund.

Units are created and cancelled at the unitholder's option at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

The units in the Fund are puttable instruments which entitle the unitholders to a pro-rata share of the Net Asset of the Fund. The units are subordinated and have identical features. There is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units. The total expected cash flows from the units in the Fund over the life of the units are based on the change in the Net Asset of the Fund.

I Segmental information

Operating segments are reported in a manner consistent with the internal reporting used by chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments that undertakes strategic decisions for the Fund.

OPUS MONEY PLUS FUND

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

J Critical accounting estimates and judgements in applying accounting policies

Key sources of estimation uncertainty

Manager believes that there are no key assumptions made concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period other than as disclosed below:-

Fair value estimates for unquoted financial assets

The Fund carries certain financial assets that are not traded in an active market at fair value. The Fund uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. The amount of fair value changes would differ if the Fund uses different valuation methodologies and assumptions, and eventually affect profit and/or other comprehensive income. The carrying amount of these financial assets as at the reporting date is disclosed in Note 4 to the financial statements.

Income taxes

There are certain transactions and computations for which the ultimate tax determination may be different from the initial estimate. The Fund recognises tax liabilities based on its understanding of the prevailing tax laws and estimates of whether such taxes will be due in the ordinary course of business. Where the final outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax expense and deferred tax balances in the period in which such determination is made.

Critical judgements made in applying accounting policies

Manager believes that there are no instances of application of critical judgement in applying the Fund's accounting policies which will have a significant effect on the amounts recognised in the financial statements.

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024

1 INFORMATION ON THE FUND

OPUS MONEY PLUS FUND (hereinafter referred to as ‘the Fund’) was constituted pursuant to the execution of a deed dated 13 July 2018 as amended by a First Supplemental Deed dated 22 September 2021, a Second Supplemental Deed dated 17 November 2022 between Opus Asset Management Sdn. Bhd. as the Manager and SCBMB Trustee Berhad as the Trustee. The Fund was launched on 28 September 2018 and will continue to be in operation until determined otherwise by the Manager or the Trustee as provided under the Deed.

The principal place of business is located at B-19-2, Northpoint Offices, Mid Valley City, No.1, Medan Syed Putra Utara, 59200 Kuala Lumpur.

The objective of the Fund is to achieve higher returns than the Maybank 1-month fixed deposit rate and to provide liquidity while preserving capital.

The Manager, Opus Asset Management Sdn. Bhd., a company incorporated in Malaysia, is principally engaged in the business of fund management and the provision of financial advisory services.

The financial statements were authorised for issue by the Manager on 24 February 2025.

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include management risk, market risk (inclusive of price risk and interest rate risk), credit risk, liquidity risk, non-compliance risk and capital risk management.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the Fund’s Prospectus.

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Financial instruments of the Fund are as follows:

	Financial assets at fair value through profit or loss RM	Amortised cost RM	Total RM
<u>31.12.2024 (Unaudited)</u>			
Unquoted fixed income securities	6,118,829	-	6,118,829
Cash and cash equivalents	-	1,631,123	1,631,123
Amount due from manager (Creation)	-	5,999	5,999
	<u>6,118,829</u>	<u>1,637,122</u>	<u>7,755,951</u>
<u>30.06.2024 (Audited)</u>			
Unquoted fixed income securities	5,402,369	-	5,402,369
Cash and cash equivalents	-	339,154	339,154
Amount due from manager (Creation)	-	12,005	12,005
	<u>5,402,369</u>	<u>351,159</u>	<u>5,753,528</u>

Management risk

Poor management of the Fund may jeopardise the investment of each unitholder. Therefore, it is important for the Manager to set the investment policies and appropriate strategies to be in line with the investment objective before any investment activities can be considered. However, there can be no guarantee that these measures will produce the desired results.

Price risk

Price risk is the risk that the fair value of an investment of the Fund will fluctuate because of changes in market prices (other than those arising from interest rate risk).

The Fund's overall exposure to price risk was as follows:

	Unaudited 31-Dec-24 RM	Audited 30-Jun-24 RM
Financial assets at fair value through profit or loss	6,066,532	5,352,456
Interest receivables	52,297	49,913
	<u>6,118,829</u>	<u>5,402,369</u>

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Price risk (continued)

The table below summarises the sensitivity of the Fund's net asset value and profit after tax to movements in prices of investments. The analysis is based on the assumption that the price of the investments fluctuates by 5% with all other variables held constant.

	<u>Change in price of investments</u> %	<u>Market value</u> RM	<u>Impact on profit after tax and net asset value</u> RM
<u>31.12.2024 (Unaudited)</u>	-5	5,763,205	(303,327)
	0	6,066,532	-
	5	6,369,859	303,327
<u>30.06.2024 (Audited)</u>	-5	5,084,833	(267,623)
	0	5,352,456	-
	5	5,620,079	267,623

Interest rate risk

In general, when interest rates rise, unquoted fixed income securities prices will tend to fall and vice versa. Therefore, the net asset value of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund hold an unquoted fixed income securities till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the net asset value shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

This risk is crucial since bond portfolio management depends on forecasting interest rate movements. Unquoted fixed income securities with longer maturity and lower yield coupon rates are more susceptible to interest rate movements.

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Interest rate risk (continued)

Investors should note that unquoted fixed income securities (such as the bonds held by the Fund) and money market instruments are subject to interest rate fluctuations. Such investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to make payments of interest and principal, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The table below summarises the sensitivity of the Fund's net asset value to movements in prices of unquoted fixed income securities held by the Fund as a result of movement in interest rate. The analysis is based on the assumptions that the interest rate increased and decreased by 1% with all other variables held constant.

<u>% change in interest rate</u>	Impact on profit after tax/ net asset value	
	Unaudited 31-Dec-24 RM	Audited 30-Jun-24 RM
+1%	(2,247)	(1,661)
-1%	2,421	1,655

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause financial loss for the Fund by failing to discharge an obligation. The Fund is exposed to the risk of credit-related losses that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations to make timely repayments of interest, principal and proceeds from realisation of investments. These credit exposures exist within financing relationships, derivatives and other transactions.

The Manager manages the Fund's credit risk by undertaking credit evaluation and close monitoring of any changes to the issuer/counterparty's credit profile to minimise such risk. It is the Fund's policy to buy financial instruments with reputable counterparties. The Manager also closely monitors the creditworthiness of the Fund's counterparties by reviewing their credit ratings and credit profiles on a regular basis.

At the reporting date, the Fund's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statement of financial position. None of the Fund's financial assets were past due or impaired as at the end of the reporting period.

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Credit risk (continued)

The Manager consider these banks and financial institutions have low credit risks. Therefore, the Manager is of the view that the loss allowance is immaterial and hence, it is not provided for.

The following table sets out the credit risk concentration of the Fund:

	Unquoted fixed income securities RM	Cash and cash equivalents RM	Other Receivables RM	Total RM
<u>31.12.2024 (Unaudited)</u>				
AAA	1,264,729	1,631,123	-	2,895,852
AA1	100,869	-	-	100,869
AA2	2,770,649	-	-	2,770,649

AA1	1,106,047	-	-	1,106,047
AA2	752,782	-	-	752,782
AA3	260,036	-	-	260,036
A1	252,226	-	-	252,226
MARC-1	248,355	-	-	248,355
Other	-	-	12,005	12,005
	<u>5,402,369</u>	<u>339,154</u>	<u>12,005</u>	<u>5,753,528</u>

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. Liquidity risk exists when particular investments are difficult to sell, possibly preventing the Fund from selling such illiquid securities at an advantageous time or price. Unit trust fund with principal investment strategies that involve securities or securities with substantial market and/or credit risk tend to have the greater exposure to liquidity risk. As part of its risk management, the Manager will attempt to manage the liquidity of the Fund through asset allocation and diversification strategies within the portfolio. The Manager will also conduct constant fundamental research and analysis to forecast future liquidity of its investments.

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Liquidity risk (continued)

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

Maturity Analysis

	Less than 1 month RM	Between 1 month to 1 year RM	Total RM
<u>31.12.2024 (Unaudited)</u>			
Amount due to Manager	2,293	-	2,293
Amount due to Trustee	164	-	164
Other payables and accruals	-	-	-
	<u>2,457</u>	<u>-</u>	<u>2,457</u>
<u>30.06.2024 (Audited)</u>			
Amount due to Manager	1,722	-	1,722
Amount due to Trustee	123	-	123
Other payables and accruals	-	-	-
	<u>1,845</u>	<u>-</u>	<u>1,845</u>

Non-compliance risk

This is the risk of the Manager not complying with the internal policies, the Deeds of the Fund, all applicable laws or guidelines issued by the regulators. This may occur as a result of system failure or the inadvertence of the Manager. The magnitude of such risk and its impact on the Fund and/or unitholders are dependent on the nature and severity of the non-compliance. Non-compliance may adversely affect the Fund especially if the investment of the Fund has to be disposed at a lower price to rectify the non-compliance.

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Capital risk management

	Unaudited <u>31-Dec-24</u> RM	Audited <u>30-Jun-24</u> RM
The capital of the Fund is represented by equity consisting of :-		
Unitholders' capital	7,665,790	5,664,285
Retained earnings	<u>87,704</u>	<u>87,398</u>

The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

3 FAIR VALUE ESTIMATION

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair values of financial assets traded in active market (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the financial period end date.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each period end date. Valuation techniques used for non-standardised financial instruments such as options, currency swaps and other over-the-counter derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted equity, debt securities and other debt instruments for which market were or have been inactive during the financial period. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

3 FAIR VALUE ESTIMATION (CONTINUED)

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds.

Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counterparty risk.

The fair values are based on the following methodologies and assumptions:

- (i) For bank balances, deposits and placements with financial institutions with maturities less than 1 year, the carrying value is a reasonable estimate of fair value.
- (ii) The carrying value less impairment of receivables and payables are assumed to approximate their fair values. The carrying values of financial assets and financial liabilities approximate their fair values due to their short term nature.

Fair value hierarchy

The Fund adopted MFRS 13 “Fair Value Measurement” in respect of disclosures about the degree of reliability of fair value measurement. This requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes ‘observable’ requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

OPUS MONEY PLUS FUND

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

3 FAIR VALUE ESTIMATION (CONTINUED)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
<u>31.12.2024 (Unaudited)</u>				
Financial assets at FVTPL				
- Unquoted fixed income securities	-	6,118,829	-	6,118,829
<u>30.06.2024 (Audited)</u>				
Financial assets at FVTPL				
- Unquoted fixed income securities	-	5,402,369	-	5,402,369

Financial instruments that trade in markets that are considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. Level 2 instruments include unquoted fixed income securities. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or nontransferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note F.

4 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

8 MANAGEMENT FEE

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 3.00% per annum of the net asset value of the Fund, calculated on a daily basis.

The management fee provided in the financial statements is 0.35% per annum based on the net asset value of the Fund, calculated on a daily basis for the financial period.

There will be no further liability to the Manager in respect of the management fee other than the amounts recognised above.

9 TRUSTEE'S FEE

In accordance with the Deed, the Trustee is entitled to a trustee fee at a rate not exceeding 0.20% per annum of the net asset value of the Fund, subject to a minimum of RM12,000 per annum calculated on a daily basis.

The Trustee's fee provided in the financial statements is 0.025% per annum based on the net asset value of the Fund, calculated on a daily basis for the financial period.

There will be no further liability to the Trustee in respect of the Trustee's fee other than the amounts recognised above.

10 AUDIT FEE AND TAX AGENT'S FEE

No accruals were made in respect of auditors' remuneration and tax agent's fees for the current and previous financial periods as the amounts were borne by the Manager.

11 TAXATION

(a) Tax charge for the financial period

	01.07.2024 to 31.12.2024	01.07.2023 to 31.12.2023

17 SEGMENTAL INFORMATION

The internal reporting provided to the Committee for the Fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRSs and IFRS. The Committee is responsible for the performance of the Fund and considers the business to have a single operating segment located in Malaysia. Asset allocation decisions are based on a single, integrated investment strategy and the Fund's performance is evaluated on an overall basis.

The reportable operating segment derives its income by seeking investments to achieve targeted returns consummate with an acceptable level of risk within the portfolio. These returns consist of profit and gains on the appreciation in the value of investments which is derived from unquoted fixed income securities in Malaysia.

There were no changes in the reportable operating segments during the financial period.
