FUND INFORMATION

Fund name Opus Shariah Income Plus Fund

Type (Category) Income (Sukuk)

Fund's Launch Date 07 November 2019

Financial Year End 30 June

Investment Objective The Fund seeks to achieve higher returns than Maybank 12-month

Islamic fixed deposit rate over the medium to long term, while

preserving capital* and providing an opportunity for income.

* Opus Shariah Income Plus Fund is neither a capital guaranteed fund

nor a capital protected fund.

Benchmark Maybank 12-month Islamic fixed deposit rate

Distribution Policy The Fund intends to distribute income, if any, at least once a year

@ The Fund's inception date was 18 October 2018 (i.e. after the end of Fund's initial offer period).

Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

MANAGER'S REPORT

As at 31 December 2023, the Fund was 94.24% invested while 5.76% was held in cash. For the period 01.07.2023 to 31.12.2023, the Fund had registered a return of 2.86% as compared to the benchmark return of 1.39% which was the accreted value of the 12-Months Islamic Fixed Deposit Rate. Hence, the Fund outperformed the benchmark by 1.47%. Since its inception, the Fund has outrperformed the benchmark by 0.59% with returns of 10.43% compared to the benchmark of 9.84%. The Fund had a duration of 5.34 years. The average rating of the portfolio was AA1.

Market Review

4Q23 saw the major central banks, i.e. US Federal Reserve, European Central Bank (ECB), and Bank of England (BOE) keeping their interest rates unchanged. During the quarter we noted a shift in the global economic narrative from a focus on the question of "how high" interest rates would go to a more nuanced consideration of "how long" these rates would be maintained. On the back of the FED's less restrictive stance, as well as declining inflation data prints, the government bonds rallied substantially with the 10-year US treasury yields falling by 70 bps over the last 3 months of 2023, ending the year around the same levels as 2022.

In the December Federal Open Market Committee (FOMC) meeting, we saw a drastic change in tone as Fed members implied a 75 bps of rate cut from the current unchanged Fed rates of 5.25% - 5.50% in 2024 through their dot-plot projections. Fed Chair Powell further hinted that rate cuts could happen prior to reaching their 2% inflation target. The ECB echoed a similar tone with the Fed, indicating that their current main lending rate had peaked. In the UK, the Bank of England (BoE) also paused their policy rate with a vote majority of 6-3 to maintain the Bank Rate at 5.25%.

MANAGER'S REPORT (CONTINUED)

Market Review (Continued)

The US economy continues to be resilient in 3Q2023, posting a revised GDP of 4.9% supported by robust domestic spending. However, emerging stress on consumption, resulting from the resumption of student loan payments, a decline in excess savings, and an uptick in subprime auto and millennial credit card delinquencies, collectively points towards a potential economic slowdown in 2024. On the contrary, tight labor market conditions continue to support employment and income levels. Therefore, despite the anticipated deceleration in growth, it is expected to maintain a positive trajectory.

Meanwhile in China, effects from the consumption stimulus targeting automobiles and electronics were reflected in the recent industrial production and retail sales data, while fiscal support under the disaster prevention expenditure had boosted infrastructure investments. However, the overall sentiment remains weighed down by the high urban unemployment rate (5%) and weakness in the real estate sector. The slight improvement in recent external trade data has not convinced markets that a sustainable recovery is intact as the global economy is expected to slow. Risk of trade tensions and western countries' diversification of their supply chain will pose a structural challenge to China's

Domestically, we saw Malaysia's economy rose by 3.3% YoY (2Q23: 2.9% YoY) in 3Q2023, outperforming market expectations and recording its fastest quarterly growth (+2.6% QoQ) since the start of the year. We believe that the economy is back on the path to normalization, after a lacklustre performance in 2Q2022. The economy continues to be driven by the resilient domestic demand, supported by the strong labour market and steady employment and wage growth. Additionally, the progress of multi-year infrastructure projects and implementation of new government initiatives will be the growth catalysts moving forward. Nonetheless, external demand will continue to be pressured by the weaker global economic growth, as we saw exports declining by -2.4% YoY in November 2023, the ninth consecutive month of decline.

In October, we also saw the Prime Minister, YAB Dato' Seri Anwar bin Ibrahim, tabling Malaysia's largest ever budget amounting to RM394 billion (Budget 2023: RM386 billion). The Budget focuses on restructuring the economy through fiscal reforms (i.e. phased subsidy rationalisation and gradual reduction of Malaysia's fiscal deficit) and to position Malaysia as an investment destination building on the National Energy Transition Roadmap (NETR), New Industrial Master Plan 2030 and 12th Malaysia Plant (12MP) announced throughout the 3Q and 4Q of 2023.

MGS yield curve took cues from the UST, shifting slightly lower by 10 to 24 bps, especially on the longer end, resulting in a flatter yield curve.

MANAGER'S REPORT (CONTINUED)

Market Outlook

Overall, market conditions have been favourable to the fixed income investors in 4Q2023 with most central banks pausing rates and shifting towards a less restrictive monetary policy stance. We saw a significant decline in the UST yields, as markets started to price in rate cuts in 2024. Despite a high likelihood of a 'soft landing' in the US, as indicated by resilient growth and easing inflation, ongoing uncertainties stemming from geopolitical risk events remain a concern heading into 2024. These include elevated trade tensions with China, the ongoing Russia-Ukraine war, and conflicts in the Middle East, which are expected to amplify the significance of the run-up to the US presidential election in 2024.

Locally, we expect the economy to continue normalising driven by the resilient domestic demand. Household spending will continue to be supported by the strong labour market and steady employment and wage growth. We expect Bank Negara Malaysia to maintain OPR at the current 3.00% given our relatively subdued inflation and the broad dollar declining from its peak amid declining yields, taking pressure off from further Ringgit depreciation.

Strategy

We view the latest pause in interest rates from the Fed, ECB and BoE as an endorsement of the end of their rate hike cycle. The global economy has so far be quite resilient but is expected to slowdown in the coming year with some market volatility stemming from emerging geopolitical risks and run-up towards the US elections.

While we maintain our duration target of 3-6 years, we may take a more cautious approach, keeping duration closer to the lower band of our range, focusing on high quality corporate Sukuks. In view of the recent rally in the Malaysian Sukuk market, we will continue to monitor the market for any retracements in the GII yields, for good trade opportunities.

MANAGER'S REPORT (CONTINUED)

Soft Commissions and Rebates

No soft commissions or rebates were received from any broker for the financial period under review.

Cross Trade

Cross trade transactions have been carried out during the reported period and the Investment Committee of the Fund has reviewed that such transactions were in the best interest of the Fund, transacted in the normal course of business at agreed terms and on a fair value basis.

State Affairs of the Fund

There is neither any significant change to the state affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the financial period under review.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A Basis of preparation of the financial statements

The financial statements of the Fund are prepared under the historical cost convention and modified to include other bases of valuation as disclosed in other sections under significant accounting policies, and in compliance with Malaysian Financial Reporting Standards ("MFRSs") and International Financial Reporting Standards ("IFRSs").

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial period. It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement on complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note K.

- (a) Standards, amendments to published standards and interpretations that are effective:
 - Amendments to MFRS 3 'Reference to Conceptual Framework' (effective 1 January 2022) replace the reference Framework for Preparation and Presentation of Financial Statements with 2018 Conceptual Framework.
 - Annual Improvements to MFRS 9 'Fees in the 10% test for derecognition of financial liabilities' (effective 1January 2022).
 - Amendments to MFRS 137 'Onerous contracts—cost of fulfilling a contract' (effective 1 January 2022) clarifythat direct costs of fulfilling a contract include both the incremental cost of fulfilling the contract as well as anallocation of other costs directly related to fulfilling contracts.

The adoption of the above standards, amendments to standards or interpretations did not have a material effect on the financial statements of the Fund.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

A Basis of preparation of the financial statements (continued)

- (b) Standards and amendments that have been issued but not yet effective:
 - Amendments to MFRS 101 'Classification of liabilities as current or non-current' (effective 1 January 2024) clarify that a liability is classified as non-current if an entity has a substantive right at the end of the reporting period to defer settlement for at least 12 months after the reporting period.
 - A liability is classified as current if a condition is breached at or before the reporting date and a waiver isobtained after the reporting date.
 - Amendments to MFRS 101, MFRS Practice Statement 2 and MFRS 108 on disclosure of accounting policies and definition of accounting estimates (effective 1 January 2023).

The adoption of the above standards, amendments to standards or interpretations is not expected to have a material effect on the financial statements of the Fund.

B Income recognition

Profit income from Islamic deposits with a licensed financial institution and unquoted sukuk are recognised based on effective profit rate method on an accrual basis.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial assets (after deduction of the loss allowance).

Realised gain and loss on sale of unquoted sukuk is measured by the difference between the net disposal proceeds and the carrying amounts of investment, determined on cost adjusted for accretion of discount or amortisation of premium.

C Distribution

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the period in which it is approved by the Trustee.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

D Taxation

Current tax expense is determined according to the Malaysian tax laws and includes all taxes based upon the taxable income earned during the financial period.

E Presentation and functional currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia, which is the Fund's presentation and functional currency.

F Financial assets

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either other comprehensive income or through profit or loss), and
- those to be measured at amortised cost

The Fund classifies its investments based on both Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Fund's investment in sukuk are solely principal and profit. However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

F Financial assets (continued)

Classification (Continued)

The Fund classifies cash and cash equivalents and amount due from Manager as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value.

Financial assets are de-recognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Unrealised gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are recognised in profit or loss in the financial period in which they arise.

Unquoted sukuk denominated in Ringgit Malaysia are revalued on a daily basis based on fair value prices quoted by a bond pricing agency ("BPA") registered with the Securities Commission of Malaysia ("SC") as per the SC Guidelines on Unit Trust Funds. Refer to Note L for further explanation.

Islamic deposits with a licensed financial institution are stated at cost plus accrued profit calculated on the effective profit method over the period from the date of placement to the date of maturity of the respective deposits, which is a reasonable estimate of fair value due to the short-term nature of the deposits.

Financial assets at amortised cost are subsequently carried at amortised cost using the effective profit method.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

F Financial assets (continued)

Impairment of financial assets

The Fund measures credit risk and expected credit losses using probability of default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

G Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

The Fund classifies amount due to Manager and amount due to Trustee as financial liabilities measured at amortised cost.

A financial liability is de-recognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are de-recognised, and through the amortisation process.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

H Cash and cash equivalents

Cash and cash equivalents consist of cash at bank and short term placements with licensed Islamic financial institutions which are readily convertible to known amount of cash, are subjected to insignificant risk of changes in fair value with original maturities of 3 months or less, and are used by the Fund in the management of its short-term commitments.

I Unitholders' capital

The unitholders' contributions to the Fund meet the criteria of definition of puttable instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's net assets value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial period if unitholder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation or cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

J Fair value of financial instruments

Financial instruments comprise financial assets and financial liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The information presented herein represents the estimates of fair values as at the date of the statement of financial position.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

K Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances

Estimates of fair value of unquoted sukuk

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC Guidelines on Unit Trust Funds.

Ringgit-denominated unquoted sukuk are valued using fair value prices quoted by a BPA. Where the Manager is of the view that the price quoted by BPA for a specific unquoted sukuk differs from the market price by more than 20 bps, the Manager may use market price, provided that the Manager:

- (i) records its basis for using a non-BPA price;
- (ii) obtain necessary internal approvals to use the non-BPA price; and
- (iii) keeps an audit trail of all decisions and basis for adopting the market price.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023

1 INFORMATION ON THE FUND

OPUS SHARIAH INCOME PLUS FUND (hereinafter referred to as 'the Fund') was constituted pursuant to the execution of a deed dated 9 August 2019 as amended by a First Supplemental Deed dated 16 January 2023 and a Second Supplemental Deed dated 03 October 2023 between Opus Asset Management Sdn. Bhd. as the Manager and SCBMB Trustee Berhad as the Trustee. The Fund was launched on 7 November 2019 and will continue to be in operation until determined otherwise by the Manager or the Trustee as provided under the Deed.

The principal place of business is located at B-19-2, Northpoint Offices, Mid Valley City, No.1, Medan Syed Putra Utara, 59200 Kuala Lumpur.

The objective of the Fund is to achieve higher returns than Maybank 12-month Islamic fixed deposit rate over the medium to long term, while preserving capital and providing an opportunity

The Manager, Opus Asset Management Sdn. Bhd., a company incorporated in Malaysia, is principally engaged in the business of fund management and the provision of financial advisory services.

The financial statements were authorised for issue by the Manager on 27 February 2024.

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include management risk, market risk (inclusive of price risk and interest rate risk), credit risk, liquidity risk, non-compliance risk, Shariah specific risk and capital risk management.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the Fund's Prospectus.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Financial instruments of the Fund are as follows:

	Financial assets at fair value through <u>profit or loss</u> RM	Amortised <u>cost</u> RM	<u>Total</u> RM
31.12.2023 (Unaudited)	24.12	14.1	1411
Unquoted sukuk	14,358,583	-	14,358,583
Cash and cash equivalents		889,362	889,362
	14,358,583	889,362	15,247,945
30.06.2023 (Audited)			
Unquoted sukuk	3,105,857	-	3,105,857
Cash and cash equivalents		1,040,711	1,040,711
	3,105,857	1,040,711	4,146,568

Management risk

Poor management of the Fund may jeopardise the investment of each unitholder. Therefore, it is important for the Manager to set the investment policies and appropriate strategies to be in line with the investment objective before any investment activities can be considered. However, there can be no guarantee that these measures will produce the desired results.

Price risk

Price risk is the risk that the fair value of an investment of the Fund will fluctuate because of changes in market prices (other than those arising from interest rate risk).

The Fund's overall exposure to price risk was as follows:

The Fund's overall exposure to price fish was as follows.	Unaudited 31-Dec-23 RM	Audited 30-Jun-23 RM
Financial assets at fair value through profit or loss Profit receivables	14,182,660 175,923	3,065,351 40,506
	14,358,583	3,105,857

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Price risk (continued)

The table below summarises the sensitivity of the Fund's net asset value and profit after tax to movements in prices of investments. The analysis is based on the assumption that the price of the investments fluctuates by 5% with all other variables held constant.

	Change in price of investments %	Market <u>value</u> RM	Impact on profit after tax and net asset value RM
31.12.2023 (Unaudited)	-5	13,473,527	(709,133)
	0	14,182,660	-
	5	14,891,793	709,133
30.06.2023 (Audited)	-5	2,912,083	(153,268)
	0	3,065,351	-
	5	3,218,619	153,268

Interst rate risk

In general, when interest rates rise, unquoted sukuk prices will tend to fall and vice versa. Therefore, the net asset value of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund hold an unquoted sukuk till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the net asset value shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

This risk is crucial since sukuk portfolio management depends on forecasting interest rate movements. Unquoted sukuk with longer maturity and lower yield profit rates are more susceptible to interest rate movements. It does not in any way suggest that this Fund will invest in conventional financial instruments. All the investments carried out for this Fund are in accordance with Shariah requirements.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

<u>Interest rate risk</u> (continued)

Investors should note that unquoted sukuk (such as the sukuk held by the Fund) and Islamic money market instruments are subject to interest rate fluctuations. Such investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to make payments of profit and principal, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The table below summarises the sensitivity of the Fund's net asset value to movements in prices of unquoted sukuk held by the Fund as a result of movement in interest rate. The analysis is based on the assumptions that the interest rate increased and decreased by 1% with all other variables held constant.

	Impact on	Impact on profit after tax	
		net asset value	
	Unaudited	Audited	
	<u>31-Dec-23</u>	30-Jun-23	
% change in interest rate	RM	RM	
+1%	(35,009)	(8,155)	
-1%	35,385	8,177	

Credit risk

This refers to the likelihood that the company issuing the sukuk and/or financial institutions where liquid assets of the Fund are deposited may default. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings.

Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer and/or financial institution. This risk refers to the possibility that the issuer of an instrument and/or financial institution will not be able to make timely payments of profit or principal payment on the maturity date, where applicable. This may lead to a default in the payment of principal and profit and ultimately a reduction in the value of the Fund.

The credit risk arising from placements of Islamic deposits in licensed financial institutions is managed by ensuring that the Fund will only place Islamic deposits in reputable licensed financial institutions. The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC Guidelines on Unit Trust Funds.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Credit risk (continued)

The Manager consider these banks and financial institutions have low credit risks. Therefore, the Manager is of the view that the loss allowance is immaterial and hence, it is not provided for.

The following table sets out the credit risk concentration of the Fund:

	Unquoted sukuk <u>securities</u> RM	Cash and cash <u>equivalents</u> RM	Other <u>Receivables</u> RM	Total RM
31.12.2023 (Unaudited)

	3,105,857	1,040,711		4,146,568

NR-GG - Unrated (Government guaranteed)

Liquidity risk

Liquidity risk exists when particular investments are difficult to sell, possibly preventing the Fund from selling such illiquid securities at an advantageous time or price. Unit trust fund with principal investment strategies that involve securities or securities with substantial market and/or credit risk tend to have the greater exposure to liquidity risk. As part of its risk management, the Manager will attempt to manage the liquidity of the Fund through asset allocation and diversification strategies within the portfolio. The Manager will also conduct constant fundamental research and analysis to forecast future liquidity of its investments.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

<u>Liquidity risk</u> (Continued)

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining year as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

Maturity Analysis

	Less than	Between 1 month	
	1 month	to 1 year	Total
	$\mathbf{R}\mathbf{M}$	$\mathbf{R}\mathbf{M}$	RM
31.12.2023 (Unaudited)			
Amount due to Manager	10,816	-	10,816
Amount due to Trustee	318		318
	11,134		11,134

Amount due to Manager	2,802	-	2,802
Amount due to Trustee	82		82
	2,884	<u> </u>	2,884

Non-compliance risk

This is the risk of the Manager not complying with the internal policies, the Deeds of the Fund, all applicable laws or guidelines issued by the regulators. This may occur as a result of system failure or the inadvertence of the Manager. The magnitude of such risk and its impact on the Fund and/or unitholders are dependent on the nature and severity of the non-compliance. Non-compliance may adversely affect the Fund especially if the investment of the Fund has to be disposed at a lower price to rectify the non-compliance.

Shariah specific risk

The risk that the investments do not conform to the principle of Shariah may result in those investments being not Shariah compliant. Should the situation arise, necessary steps shall be taken to dispose of such investments in accordance with the rules of divestment of non Shariah-compliant investments. If this occurs, the Fund could suffer losses from the disposal and thus, adversely affecting the value of the Fund.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Capital risk management

	Unaudited 31-Dec-23	Audited 30-Jun-23
	RM	RM
The capital of the Fund is represented by equity consisting of:-		
Unitholders' capital	14,942,325	4,141,063
Retained earnings	294,486	2,621

The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

3 FAIR VALUE ESTIMATION

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair values of financial assets traded in active market (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the financial year end date.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each year end date. Valuation techniques used for non-standardised financial instruments such as options, currency swaps and other over-the-counter derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted equity, and sukuk for which market were or have been inactive during the financial year. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

3 FAIR VALUE ESTIMATION (CONTINUED)

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds.

Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counterparty risk.

The fair values are based on the following methodologies and assumptions:

- (i) For bank balances, Islamic deposits and placements with financial institutions with maturities less than 1 year, the carrying value is a reasonable estimate of fair value.
- (ii) The carrying value less impairment of receivables and payables are assumed to approximate their fair values. The carrying values of financial assets and financial liabilities approximate their fair values due to their short term nature.

Fair value hierarchy

The Fund adopted MFRS 13 "Fair Value Measurement" in respect of disclosures about the degree of reliability of fair value measurement. This requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

3 FAIR VALUE ESTIMATION (CONTINUED)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
31.12.2023 (Unaudited)	KWI	Kivi	Kivi	Kivi
Financial assets at FVTPL				
- Unquoted sukuk		14,358,583		14,358,583
30.06.2023 (Audited)				
Financial assets at FVTPL				
- Unquoted sukuk		3,105,857		3,105,857

Financial instruments that trade in markets that are considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. Level 2 instruments include unquoted sukuk. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or nontransferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note F.

7 MANAGEMENT FEE

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 3.00% per annum of the net asset value of the Fund, calculated on a daily basis.

The management fee provided in the financial statements is 0.85% per annum based on the net asset value of the Fund, calculated on a daily basis for the financial period.

There will be no further liability to the Manager in respect of the management fee other than the amounts recognised above.

8 TRUSTEE'S FEE

In accordance with the Deed, the Trustee is entitled to a trustee fee at a rate not exceeding 0.20% per annum of the net asset value of the Fund, subject to a minimum of RM12,000 per annum calculated on a daily basis.

The Trustee's fee provided in the financial statements is 0.025% per annum based on the net asset value of the Fund, calculated on a daily basis for the financial period.

There will be no further liability to the Trustee in respect of the Trustee's fee other than the amounts recognised above.

9 AUDIT FEE AND TAX AGENT'S FEE

No accruals were made in respect of auditors' remuneration and tax agent's fees for the current and previous financial periods as the amounts were borne by the Manager.

10 TAXATION

(a) Tax charge for the financial period

01.07.2023	01.07.2022
to 31.12.2023	to 31.12.2022
$\mathbf{R}\mathbf{M}$	RM
_	_

Current taxation

10 TAXATION (CONTINUED)

(b) Numerical reconciliation of income tax expense

The numerical reconciliation between profit before taxation multiplied by the Malaysian statutory income tax rate and the tax expense of the Fund is as follows:

	01.07.2023 to 31.12.2023 RM	01.07.2022 to 31.12.2022 RM
Profit before taxation	384,927	92,038
Tax calculated at a tax rate of 24% (31.12.2022 : 24%)	92,382	22,089
Tax effects of:		
Investment income not subject to tax	(107,069)	(26,406)
Expenses not deductible for tax purposes	476	166
Restriction on tax deductible expenses for unit trust funds	14,210	4,151
11 DICEDIBLESION		
11 DISTRIBUTION Distribution to unitholders are from the following sources:	01.07.2023 to 31.12.2023 RM	01.07.2022 to 31.12.2022 RM
Distribution to unitholders are from the following sources: Profit income from unquoted sukuk at FVTPL	to 31.12.2023	to 31.12.2022
Distribution to unitholders are from the following sources: Profit income from unquoted sukuk at FVTPL Profit income from Islamic deposits with licensed	to 31.12.2023 RM 247,963	to 31.12.2022
Distribution to unitholders are from the following sources: Profit income from unquoted sukuk at FVTPL Profit income from Islamic deposits with licensed financial institutions at amortised cost	to 31.12.2023 RM 247,963 14,015	to 31.12.2022
Distribution to unitholders are from the following sources: Profit income from unquoted sukuk at FVTPL Profit income from Islamic deposits with licensed financial institutions at amortised cost Realised loss on sale of investments	to 31.12.2023 RM 247,963	to 31.12.2022
Distribution to unitholders are from the following sources: Profit income from unquoted sukuk at FVTPL Profit income from Islamic deposits with licensed financial institutions at amortised cost Realised loss on sale of investments Prior years' realised income	to 31.12.2023 RM 247,963 14,015 (109,437)	to 31.12.2022
Distribution to unitholders are from the following sources: Profit income from unquoted sukuk at FVTPL Profit income from Islamic deposits with licensed financial institutions at amortised cost Realised loss on sale of investments Prior years' realised income Gross realised income	to 31.12.2023 RM 247,963 14,015 (109,437) - 152,541	to 31.12.2022
Distribution to unitholders are from the following sources: Profit income from unquoted sukuk at FVTPL Profit income from Islamic deposits with licensed financial institutions at amortised cost Realised loss on sale of investments Prior years' realised income	to 31.12.2023 RM 247,963 14,015 (109,437) - 152,541 (59,479)	to 31.12.2022
Distribution to unitholders are from the following sources: Profit income from unquoted sukuk at FVTPL Profit income from Islamic deposits with licensed financial institutions at amortised cost Realised loss on sale of investments Prior years' realised income Gross realised income Less: Expenses	to 31.12.2023 RM 247,963 14,015 (109,437) - 152,541	to 31.12.2022

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

11 DISTRIBUTION (CONTINUED)

	Entitlement <u>date</u>	Payment <u>date</u>	Gross distribution per unit (sen)	Net distribution per unit (sen)
01.07.2023 to 31.12.2023	25-Sep-2023 20-Dec-2023	26-Sep-2023 21-Dec-2023	0.15 0.50	0.15 0.50
to 51:12:2025	20 000-2023	21 DCC-2023	0.65	0.65

Gross distribution is derived using total income less total expenses.

Gross distribution per unit is derived from gross realised income less expenses divided by the number of units in circulation, while net distribution per unit is derived from gross realised income less expenses and taxation divided by the number of units in circulation.

	01.07.2023 to 31.12.2023 RM	01.07.2022 to 31.12.2022 RM
Unrealised profit incurred during the financial period	140,919	73,992

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

12 TOTAL EXPENSE RATIO ("TER")

	01.07.2023 to 31.12.2023 %	01.07.2022 to 31.12.2022 %
TER	0.44	0.45

Total expense ratio includes management fee, trustee's fee, audit fee, tax agent's fee and other expenses which is calculated as follows:

$$TER = \underbrace{(A + B + C)}_{D} \times 100$$

A = Management fee

B = Trustee's fee

C = Audit fee

D = Average net asset value of the Fund for the financial period, calculated on a daily basis

	01.07.2023	01.07.2022
	to 31.12.2023	to 31.12.2022
	RM	$\mathbf{R}\mathbf{M}$
The average net asset value of the Fund		
calculated on a daily basis	13,817,206	4,035,738

13 PORTFOLIO TURNOVER RATIO ("PTR")

	01.07.2023 to 31.12.2023	01.07.2022 to 31.12.2022
PTR (times)	0.40	0.26

PTR is derived from the following calculation:

(Total acquisition for the financial period + total disposal for the financial period) $\div 2$ Average net asset value of the Fund for the financial period calculated on a daily basis

	01.07.2023 to 31.12.2023 RM	01.07.2022 to 31.12.2022 RM
where: Total acquisition for the financial period Total disposals for the financial period	11,067,304	915,730 1,161,642

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 DECEMBER 2023 (CONTINUED)

14 UNITS HELD BY THE MANAGER AND PARTIES RELATED TO THE MANAGER

The related parties and their relationship with the Fund are as follows:

Related parties	Relationship
Opus Asset Management Sdn Bhd Persons connected with the Manager	The Manager (a) Employees and related to the Manager (b) A wholesale fund that is managed by the Manager
