## PRODUCT HIGHLIGHTS SHEET

This Product Highlights Sheet only highlights the key features and risks of Opus Shariah Income Plus Fund. Investors are advised to request, read and understand the Prospectus and its supplementary(ies) (if any) before deciding to invest.

## OPUS SHARIAH INCOME PLUS FUND

### BRIEF INFORMATION OF THE PRODUCT

<b>Launch date</b>	01 November 2019
<b>Name of Issuer</b>	Opus Asset Management Sdn Bhd.
<b>Benchmark</b>	Maybank 12-month Islamic fixed deposit rate Source: Malayan Banking Berhad <i>Note: Please note that the risk profile of the Fund may be higher than the risk profile of the benchmark.</i>
<b>Investment Objective</b>	The Fund seeks to achieve higher returns than Maybank 12-month Islamic fixed deposit rate over the medium to long term, while preserving capital and providing an opportunity for income.
<b>Financial Year</b>	30 June.
<b>Capital Guarantee</b>	The Fund is neither a capital guaranteed fund nor a capital protected fund.

### PRODUCT SUITABILITY

<b>Fund Type</b>	Income.
<b>Fund Category</b>	Sukuk.
<b>Investors' Profile</b>	The Fund is suitable for investors who: <ul style="list-style-type: none"> <li>▪ have medium to long term investment horizon;</li> <li>▪ are seeking higher returns than 12-month Islamic fixed deposit rate;</li> <li>▪ have low to medium risk tolerance; and</li> <li>▪ are seeking for regular income which comply with Shariah principles.</li> </ul>

### KEY PRODUCT FEATURES

<b>Investment Manager (the Manager)</b>	Opus Asset Management Sdn Bhd.
<b>Manager's Delegate</b>	Nil.
<b>Trustee</b>	SCBMB Trustee Berhad.
<b>Trustee's Delegate</b>	Standard Chartered Bank Malaysia Berhad.
<b>Auditor</b>	Pricewaterhouse Coopers PLT.
<b>Shariah Adviser</b>	Tawafuq Consultancy Sdn Bhd.
<b>Tax Adviser</b>	Pricewaterhouse Coopers Taxation Services Sdn Bhd.
<b>Principal Investment Strategy</b>	<p>The Fund seeks to achieve its objective by investing a minimum of 70% of its NAV in RM-denominated sukuk such as RM-denominated sukuk issued by corporate entities or financial institutions and/or issued or guaranteed by the Malaysian government, Bank Negara Malaysia, government-related entities and/or quasi-government related entities. The Fund may invest in RM-denominated sukuk that are listed, unlisted, rated, unrated, convertible, perpetual or callable sukuk. In respect of convertible sukuk which the Fund may invests in, we may dispose of such convertible sukuk prior to conversion. In the event we convert the sukuk, we will dispose such securities within 3 months from the date of conversion.</p> <p>The Fund's investment maturity profile is subject to active maturity structure management based on the profit rate outlook without any portfolio maturity limitation. The Fund may invest in sukuk with varying maturities.</p> <p>Our trading strategy is based on fundamental research rather than frequent trading. We will switch our investment in sukuk if we are of the view that there has been a change in duration, sector or credit outlook of the sukuk. Credit quality, value and yield-spread are considered collectively.</p>

## PRODUCT HIGHLIGHTS SHEET

	<p>We will invest in RM-denominated sukuk or its issuers which have a minimum credit rating of at least AA3 or P2 by RAM Rating Services Berhad (or equivalent rating by Malaysian Rating Corporation Berhad or by any other reputable credit rating agency) at the time of purchase. In the event of a credit downgrade, we reserve the right to deal with the sukuk in the best interest of Unit Holder. For example, we may continue to hold the downgraded sukuk if the immediate disposal of such sukuk would not be in the best interest of the Unit Holders.</p> <p>If the RM-denominated sukuk which the Fund intends to invest in or its issuers are unrated, we may only invest in those RM-denominated sukuk or issuers which have been approved by our internal credit committee.</p> <p>The Fund may invest up to 30% of its NAV in Other RM-denominated Shariah-compliant Instruments (of which up to 15% of its NAV may be invested in Islamic structured products).</p> <p><b>Investments in Islamic structured products and Islamic derivatives</b></p> <p>The Fund may invest up to 15% of its NAV in Islamic structured products issued by a single counter-party in Islamic fixed income related structured products. Investment into these Islamic structured products will provide the Fund with exposure to the reference asset. Each of these Islamic structured products has its own targeted maturity and will expose investors to the price fluctuations of the reference asset that the Islamic structured product is linked to. Any fluctuation in the price of the Islamic structured product may also lead to fluctuations in the NAV of the Fund, i.e. if the price of the Islamic structured product drops, the NAV of the Fund will also be negatively impacted. As the Fund may invest up to 15% of its NAV in Islamic structured products, investors should be aware that there is a likelihood for the NAV per Unit to experience high volatility.</p> <p>As the Islamic structured product is structured by an external party, investments into an Islamic structured product will also expose the Fund to counterparty risk, which we will attempt to mitigate by carrying out a stringent selection process on its counterparty prior to an investment being made.</p> <p>Islamic derivative trades may be carried out for hedging purposes only through financial instruments including, but not limited to, Islamic profit rate swaps, Islamic forward contracts and Islamic futures contracts.</p>	
<b>Asset Allocation</b>	<b>Asset Class</b>	<b>% of Fund's NAV</b>
	RM-denominated sukuk.	A minimum of 70%
	Other RM-denominated Shariah-compliant Instruments (of which up to 15% of its NAV may be invested in Islamic structured products).	Up to 30%
<b>Distribution Policy</b>	The Fund intends to distribute income, if any, at least once a year.	
<b>Minimum Initial Investment<sup>^</sup></b>	RM 1,000.	
<b>Minimum Additional Investment<sup>^</sup></b>	RM 100.	
<b>Minimum Holdings to Maintain an Account<sup>^</sup></b>	1,000 Units.	
<i><sup>^</sup>or such other lower amount as may be determined by us from time to time</i>		
<b>KEY RISKS</b>		
<b>Specific Risks</b>	<ul style="list-style-type: none"> <li>• <b>Credit and default risk</b> Credit risk relates to the creditworthiness of the issuers of the sukuk and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the sukuk.</li> </ul>	

## PRODUCT HIGHLIGHTS SHEET

In the case of rated sukuk, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a sukuk either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the sukuk. This could adversely affect the value of the Fund.

- **Interest rate risk**

Interest rate risk refers to the impact of interest rate changes on the valuation of the sukuk and Islamic money market instruments. When interest rate rise, the pricing of sukuk and Islamic money market instruments prices may decline and lower the market value of the Fund's investment in sukuk and Islamic money market instruments. The reverse may apply when interest rates fall. In order to mitigate interest rate risk, we will manage the sukuk and Islamic money market instruments taking into account the profit rate and time to maturity of the sukuk and Islamic money market instruments.

*Note: Interest rate is a general indicator that will have an impact on the management of the Fund regardless whether it is an Islamic fund or otherwise. It does not in any way suggest that this Fund will invest in conventional financial instruments.*

- **Counterparty risk**

Counterparty risk is the risk to each party of a contract that the counterparty will fail to perform its contractual obligations and/or to respect its commitments under the term of such contract, whether due to insolvency, bankruptcy or other cause. In this regards, the Fund may be exposed to risks arising from the solvency of its counterparties and from its inability to respect the conditions of the contracts.

- **Liquidity risk**

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.

- **Islamic derivative risk**

We may use Islamic derivatives for hedging purposes only. Valuation of Islamic derivatives takes into account a multitude of factors such as movement of the underlying assets, the correlation of the underlying assets with the Fund, the implied future direction of the underlying assets and other factors. Any diverse changes of the factors mentioned above, may result in a lower NAV price and higher volatility for the Fund's NAV. When participating in Islamic derivatives, we will monitor the valuation of the Islamic derivatives and credit ratings of the financial institutions as counterparty to the instruments, where applicable, and take appropriate actions to mitigate any risk associated with such instruments. This may extend to unwinding of the Islamic derivatives in the event where there is a need to terminate current position due to reversal in market movement, repurchases in Units or upon downgrade of the credit ratings of the financial institutions.

- **Islamic structured products risk**

The NAV of the Fund will be impacted by the valuation of the Islamic structured products. Factors that may impact the valuation of the Islamic structured products will include, but not limited to movement of the underlying asset, volatility of the underlying assets, interest rate levels, the correlation of the underlying assets and other such factors. Any change in the aforesaid factors would either positively or negatively impact the valuation of the Islamic structured products hence impacting the NAV of the Fund. As such, the Fund's NAV will be exposed to potential price volatility, which will be dependent on the valuation of the Islamic structured products that the Fund invested in.

- **Unrated sukuk and Islamic money market instruments risk**

Unrated sukuk or Islamic money market instruments can be less liquid than rated

## PRODUCT HIGHLIGHTS SHEET

	<p>sukuk or Islamic money market instruments. Many of the unrated sukuk or Islamic money market instruments are traded over the counter and/or do not trade frequently compared to rated sukuk or Islamic money market instruments. When the unrated sukuk or Islamic money market instruments do trade, their prices may be significantly higher or lower than expected. At times, it may be difficult to sell unrated sukuk or Islamic money market instruments promptly at an acceptable price, which may limit the Fund's ability to sell these instruments in response to specific economic events.</p> <p>Unrated sukuk or Islamic money market instruments may pay higher profit rate than rated sukuk or Islamic money market instruments of comparable quality. As a result, unrated sukuk or Islamic money market instruments are subject to greater risk of illiquidity or sudden price changes. Public information on unrated sukuk or Islamic money market instruments or their issuers is typically less available as compared with rated sukuk or Islamic money market instruments.</p> <ul style="list-style-type: none"> <li>• <b>Shariah non-compliance risk</b> There is a risk that the Fund may suffer losses when we have to dispose of any investments to rectify any Shariah non-compliance. If this occurs, the value of the Fund may be adversely affected. This risk is, however, mitigated through the appointment of Shariah Adviser, who will be responsible to ensure that the Fund is managed and administered in accordance with the Shariah Investment Guidelines set out in Section 3.9 of the Prospectus.</li> </ul>
--	--

**It is important to note that an investment in the Fund carries risks and the above list of risks may not be exhaustive. While every care will be taken by us to mitigate the risk, you are advised that it is not always possible to protect investments against all risks.**

**You are recommended to read the whole Prospectus to assess the risks of the Fund and if necessary, you should consult your advisers, e.g. bankers, lawyers, Shariah advisers, tax advisers or independent investment advisers for a better understanding of the risks.**

**For more details, please refer to section 4.1 and section 4.2 in the Prospectus for the general and specific risks of investing in the Fund.**

**Note: If your investments are made through an institutional unit trust adviser ("Distributor") which adopts the nominee system of ownership, you would not be deemed to be a Unit Holder under the deed and as a result, your rights as an investor may be limited. Accordingly, we will only recognise the Distributor as a Unit Holder of the Fund and the Distributor shall be entitled to all the rights conferred to it under the deed.**
