3.2 INVESTMENT OBJECTIVE

The Fund seeks to achieve higher returns than Maybank 12-month fixed deposit rate over the medium to long term, while preserving capital* and providing an opportunity for income.

Note:

** Opus IPF is neither a capital guaranteed fund nor a capital protected fund.*

Any material change to the investment objective of the Fund will require Unit Holders' approval.

3.3 INVESTMENT POLICY AND STRATEGY

The Fund seeks to achieve its objective by investing a minimum of 70% of its NAV in RM-denominated fixed income securities such as RM-denominated fixed income securities issued by corporate entities or financial institutions and/or issued or guaranteed by the Malaysian government, BNM, government-related entities and/or quasi-government related entities. The Fund may invest in RM-denominated fixed income securities that are listed, unlisted, rated, unrated, convertible, perpetual or callable fixed income securities. In respect of convertible fixed income securities which the Fund invests in, we may dispose of such convertible fixed income securities prior to conversion. In the event we convert the convertible fixed income securities, we will dispose such convertible fixed income securities within 3 months from the date of conversion.

The Fund's investment maturity profile is subject to active maturity structure management based on the interest rate outlook without any portfolio maturity limitation. The Fund may invest in fixed income securities with varying maturities.

Our trading strategy is based on fundamental research rather than frequent trading. We will switch our security if we have a change in duration, sector or credit outlook of the security. Credit quality, value and yield-spread are considered collectively.

We will also invest in RM-denominated fixed income securities or its issuers which have a minimum credit rating of at least AA3 or P2 by RAM (or equivalent rating by MARC or by any other reputable credit rating agency) at the point of purchase. In the event of a credit downgrade, we reserve the right to deal with the instrument in the best interest of Unit Holder. For example, we can continue to hold the downgraded instrument if the immediate disposal of such instrument would not be in the best interest of Unit Holder.

If the RM-denominated fixed income securities which the Fund intends to invest in or its issuers are unrated, we may only invest in those RM-denominated fixed income securities or issuers which have been approved by our internal credit committee.

The Fund may invest up to 30% of its NAV in Other RM-denominated Instruments.

Investments in structured products and derivatives

The Fund may invest up to 15% of its NAV in structured products issued by a single counterparty in fixed income related structured products such as, but not limited to, credit linked notes and bond linked notes. Investment into these structured products will provide the Fund with exposure to the reference asset. Each of these structured products has its own targeted maturity and will expose investors to the price fluctuations of the reference asset that the structured product is linked to. Any fluctuation in the price of the structured product may also lead to fluctuations in the NAV of the Fund i.e. if the price of the structured product drops, the NAV of the Fund will also be negatively impacted. As the Fund may invest up to 15% of its NAV in structured products, investors should be aware that there is a likelihood for the NAV per Unit to experience high volatility.

As the structured product is structured by an external party, investments into a structured product will also expose the Fund to counterparty risk, which we will attempt to mitigate by carrying out a stringent selection process on its counterparty prior to an investment being made.

Derivative trades may be carried out for hedging purposes only through financial instruments including, but not limited to, interest rate swaps, forward contracts and futures contracts.

Temporary Defensive Position

We may take temporary defensive positions that may be inconsistent with the Fund's investment strategy in attempting to respond to certain adverse conditions which include but not limited to adverse market, economic and political conditions, insufficient funds to form an efficient portfolio, periods of high repurchases or any other adverse conditions in order to preserve the NAV of the Fund. By taking a temporary defensive position, we will reduce the Fund's investment exposure in fixed income securities and hold more cash. The cash will be placed in deposits with financial institutions to reduce the exposure during market downturn and to help preserve the Fund's capital and mitigate losses.

We are allowed to implement temporary defensive positions up to a maximum of 3 months from the date the temporary defensive positions is implemented.

3.4 ASSET ALLOCATION

- A minimum of 70% of its NAV in RM-denominated fixed income securities; and
- Up to 30% of its NAV in Other RM-denominated Instruments.

3.5 DISTRIBUTION POLICY

The Fund intends to distribute income, if any, at least once a year.

Please refer to Section 6.9 for information regarding the mode of distribution.

3.6 PERFORMANCE BENCHMARK

Maybank 12-month fixed deposit rate.

Source: Malayan Banking Berhad.

Note: Please note that the risk profile of the Fund may be higher than the risk profile of the benchmark.

3.7 PERMITTED INVESTMENTS

- Fixed income securities which are issued by corporate entities or financial institutions;
- Fixed income securities which are issued or guaranteed by Malaysian government, BNM, government related entities and/or quasi-government related entities;

- Collective investment schemes including exchange traded funds;
- Structured products;
- Derivatives (hedging purposes only); and
- Any other form of investments as may be permitted by the SC and as may be agreed between the Manager and the Trustee from time to time.

3.8 INVESTMENT RESTRICTIONS AND LIMITS

The Fund will be managed in accordance with the following investment restrictions and limits:

Investment Spread Limits

1. The value of the Fund's investments in fixed income securities issued by any single issuer must not exceed 20% of the Fund's NAV. The single issuer limit may be increased to 30% if the fixed income securities are rated by any domestic or global rating agency to be of the best quality and offer highest safety for timely payment of interest and principal.
2. The value of the Fund's investments in fixed income securities issued by any one group of companies must not exceed 30% of the Fund's NAV.
3. The value of the Fund's placement in deposits with any single institution must not exceed 20% of the NAV of the Fund.

4. For investments in derivatives, the exposure to the underlying assets must not exceed the investment spread limits stipulated in this section and the value of the Fund's over-the-counter derivative transaction with any single counter-party must not exceed 10% of the Fund's NAV.
5. The value of the Fund's investments in structured products issued by a single counter-party must not exceed 15% of the Fund's NAV.
6. The aggregate value of the Fund's investments in fixed income securities, money market instruments, deposits, over-the-counter derivatives and structured products issued by or placed with, as the case may be, any single issuer or institution must not exceed 25% of the NAV of the Fund. Where the single issuer limit is increased to 30% pursuant to paragraph (1), the aggregate value of the Fund's investments must not exceed 30% of the NAV of the Fund.
7. The value of the Fund's investments in units or shares of any collective investment scheme must not exceed 20% of the NAV of the Fund.

Investment Concentration Limits

8. The Fund's investments in fixed income securities must not exceed 20% of the securities issued by any single issuer.
9. The Fund's investments in money market instruments must not exceed 10% of the instruments issued by any single issuer.

Note: This limit does not apply to money market instruments that do not have a pre-determined issue size.

10. The Fund's investments in collective investment schemes must not exceed 25% of the units or shares in any one collective investment scheme.

The above limits and restrictions shall be complied with at all times based on the most up-to-date value of the Fund's investments. However, a 5% allowance in excess of any limit or restriction is permitted where the limit or restriction is breached through the appreciation or depreciation of the NAV of the Fund, whether as a result of an appreciation or depreciation in value of the Fund's NAV, or as a result of repurchase of Units or payment made out of the Fund. We will not make any further acquisition when the relevant limit or restriction is breached and we will, within a reasonable period of not more than 3 months from the date of the breach, take all necessary steps and actions to rectify the breach.

All the restrictions and limits stated above do not apply to instruments issued or guaranteed by the Malaysian government or BNM.

3.9 POLICY ON GEARING FOR THE FUND

The Fund will not borrow cash or other assets (including the borrowing of securities within the meaning of the Securities Borrowing and Lending Guidelines) in connection with its activities.

4. RISK FACTORS

4.1 GENERAL RISKS OF INVESTING IN THE FUND

Market risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets due to economic, political and/or other factors which will result in a decline in the Fund's NAV.

Fund management risk

This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Returns are not guaranteed

There is no guarantee that investing in the Fund will produce the desired investment returns.

Inflation risk

This is the risk that investors' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce the investors' purchasing power even though the value of the investment in monetary terms has increased.

Operational risk

This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error (for instance the keying of wrong details), system failure (causing unnecessary downtime) or even fraud (where our employees collude with one another). Whilst this risk may not necessarily cause monetary loss to the Fund, Unit Holders cannot discount the risk that losses may be suffered by the Fund if the breakdown is sufficiently serious. We will regularly review our internal policies and system capability to mitigate the occurrence of this risk.

Risk of non-compliance

Although it is our intention to observe all rules governing the Fund at all times, both external factors (adverse market conditions, natural disasters or political instability) and internal factors (oversight by the fund manager, a lapse in the compliance function, or a clerical error) could impact our ability to observe rules governing the Fund. Whilst non-compliance with the rules governing the Fund will not necessarily result in losses to the Fund, Unit Holders cannot discount the risk that losses may be suffered by the Fund if the non-compliance with the rules is sufficiently serious.

4.2 SPECIFIC RISKS OF INVESTING IN THE FUND

Credit and default risk

Credit risk relates to the creditworthiness of the issuers of the fixed income securities and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the fixed income security. In the case of rated fixed income security, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a fixed income security either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the fixed income security. This could adversely affect the value of the Fund.

Interest rate risk

Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income securities. When interest rates rise, fixed income securities prices generally decline and this

may lower the market value of the Fund's investment in fixed income securities and affect the NAV of the Fund negatively. The reverse may apply when interest rates fall.

Counterparty risk

Counterparty risk is the risk to each party of a contract (such as over-the-counter derivatives, repurchase agreements, futures and forward contracts, etc.) that the counterparty will fail to perform its contractual obligations and/or to respect its commitments under the term of such contract, whether due to insolvency, bankruptcy or other cause. In this regards, the Fund may be exposed to risks arising from the solvency of its counterparties and from its inability to respect the conditions of the contracts.

Liquidity risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.

Derivative risk

We may use derivatives for hedging purposes only. Valuation of derivatives takes into account a multitude of factors such as movement of the underlying assets, the correlation of the underlying assets with the Fund, the implied future direction of the underlying assets and other factors. Any diverse changes of the factors mentioned above, may result in a lower NAV price and higher volatility for the Fund's NAV. When participating in derivatives, we will monitor the valuation of the derivatives and credit ratings of the financial institutions as counterparty to the instruments, where applicable and take appropriate actions to mitigate any risk associated with such instruments. This may extend to unwinding of the derivatives in the event where there is a need to terminate current position due to reversal in market movement, repurchases in Units or upon downgrade of the credit ratings of the financial institutions.

Structured products risk

The NAV of the Fund will be impacted by the valuation of the structured products. Factors that may impact the valuation of the structured products will include, but not be limited to movement of the underlying asset, volatility of the underlying assets, interest rate levels, the correlation of the underlying assets and other such factors. Any change in the aforesaid factors would either positively or negatively impact the valuation of the structured products hence impacting the NAV of the Fund. As such, the Fund's NAV will be exposed to potential price volatility, which will be dependent on the valuation of the structured products that the Fund invested in.

Unrated fixed income securities risk

Unrated fixed income securities or money market instruments can be less liquid than rated fixed income securities or money market instruments. Many of the unrated fixed income securities or money market instruments are traded over the counter and/or do not trade frequently compared to rated fixed income securities or money market instruments. When the unrated fixed income securities or money market instruments do trade, their prices may be significantly higher or lower than expected. At times, it may be difficult to sell unrated fixed income securities or money market instruments promptly at an acceptable price, which may limit the Fund's ability to sell these instruments in response to specific economic events.

Unrated fixed income securities or money market instruments may pay higher profit rate than rated fixed income securities or money market instruments of comparable quality. As a result, unrated fixed income securities or money market instruments are subject to greater risk of illiquidity or sudden price changes. Public information on unrated fixed income securities or money market instruments or their issuers is typically less available as compared with rated fixed income securities or money market instruments.

4.3 RISK MANAGEMENT STRATEGIES

There are generally 3 main risks in fixed income investments of the Fund. OpusAM applies the following risk management strategies for the respective risks involved: -

Risk	OpusAM's strategies to mitigate investment risks
Credit and Default Risk	<ul style="list-style-type: none">▪ Mitigate by rigorous credit analysis and disciplined investment process.▪ Focus on investment grade issues.▪ Optimal portfolio diversification.▪ Review and assess on regular basis by analysts and fund managers.▪ Corporate actions are monitored regularly and discussed in the credit meeting.
Interest Rate Risk	<ul style="list-style-type: none">▪ Diversify through different maturities.▪ Adjust maturity structure based on the interest rate outlook.▪ Shortening of maturity when interest rates are expected to rise.
Liquidity Risk	<ul style="list-style-type: none">▪ Mitigate by investing mainly in investment grade issues.▪ Maturity mixed to meet liquidity requirements.▪ Measure and monitor daily by fund management and operations department.▪ Table quarterly to the investment committee.

IT IS IMPORTANT TO NOTE THAT AN INVESTMENT IN THE FUND CARRIES RISKS AND THE ABOVE LIST OF RISKS MAY NOT BE EXHAUSTIVE. WHILE EVERY CARE WILL BE TAKEN BY THE MANAGER TO MITIGATE THE RISK, INVESTORS ARE ADVISED THAT IT IS NOT ALWAYS POSSIBLE TO PROTECT INVESTMENTS AGAINST ALL RISKS.

INVESTORS ARE RECOMMENDED TO READ THE WHOLE PROSPECTUS TO ASSESS THE RISKS OF THE FUND AND IF NECESSARY, THEY SHOULD CONSULT THEIR ADVISERS, E.G. THEIR BANKERS, LAWYERS, TAX ADVISERS OR INDEPENDENT INVESTMENT ADVISERS FOR A BETTER UNDERSTANDING OF THE RISKS.

6.1.2 Valuation of the Fund

We will value the Fund at 6.00 p.m. on every Business Day.

6.1.3 Single Pricing Policy

We adopt a single pricing policy in calculating your application for and repurchase of Units. Single pricing equates to sales and repurchases quoted and transacted on a single price (i.e. the initial offer price during the initial offer period and the NAV per Unit after the initial offer period).

The NAV per Unit is valued daily at the next valuation point on a forward pricing basis.

6.1.4 Policy on Rounding Adjustment

In calculating your investments with us, the Units allocated to you will be calculated based on the NAV per Unit of the Fund which is also the Selling Price and Repurchase Price of the Fund that has been rounded to 4 decimal places. When you invest in the Fund, the investment amount payable by you will be rounded to 2 decimal places. We will allocate Units in your account by rounding off to the nearest 4 decimal places.

6.1.5 Incorrect Pricing

We shall take immediate action to rectify any incorrect valuation and pricing of the Fund and/or the Units and to notify the Trustee and the relevant authorities of the same unless the Trustee considers the incorrect valuation and pricing of the Fund and/or the Units is of minimal significance. An incorrect valuation and pricing of the Fund and/or the Units shall result in a reimbursement of moneys unless the Trustee considers that such incorrect valuation and pricing of the Fund and/or the Units is of minimal significance.

The Trustee shall not consider an incorrect valuation and pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than RM10.00. An incorrect valuation and pricing not considered to be of minimal significance by the Trustee shall result in reimbursement of moneys in the following manner:

- (a) if there is an over valuation and pricing in relation to the purchase and creation of Units, the Fund shall reimburse you;
- (b) if there is an over valuation and pricing in relation to the repurchase of Units, we shall reimburse the Fund;
- (c) if there is an under valuation and pricing in relation to the purchase and creation of Units, we shall reimburse the Fund; and
- (d) if there is an under valuation and pricing in relation to the repurchase of Units, the Fund shall reimburse you or former Unit Holder.

6.2 COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund means the total value of the Fund's assets less the Fund's expenses or liabilities incurred or accrued for the day.

Below is an illustration on how the NAV of the Fund is calculated:

		RM
	Securities Investment	240,772,498
Add :	Assets (including cash)	18,668,352
		<hr/> 259,440,850
Less :	Liabilities	<hr/> 2,858,986
	NAV before deducting management fee and trustee fee for the day	256,581,864
Less :	Trustee fee for the day (up to 0.025% per annum calculated based on the NAV subject to a minimum of RM12,000 per annum) <u>256,581,864 x 0.025%</u> 365	175.74
	GST on trustee fee (175.74 x 0%)	0
	Management fee for the day (up to 0.85% per annum calculated based on the NAV) <u>256,581,864 x 0.85%</u> 365	5,975.19
	GST on management fee (4,920.75 x 0%)	0
	NAV of the Fund	<hr/> 256,575,713.07 <hr/>

NAV per Unit

The NAV per Unit is calculated by dividing the total NAV of the Fund by the total number of Units in circulation as at the valuation point.

Below is an illustration on how the NAV per Unit of the Fund is calculated:

Say for example the number of Units in circulation for the Fund is 200,000,000 Units and the NAV of the Fund is RM256,575,713.07 at the point of valuation, the NAV per Unit will be:

NAV of the Fund	:	<hr/> RM256,575,713.07
Number of Units in circulation	:	<hr/> 200,000,000 Units
NAV per Unit	:	<hr/> RM1.2829

6.2.1 Illustration on how Units are allocated

Assuming a Unit Holder invests RM10,000 in the Fund, the NAV per Unit of the Fund is RM1.00, the Sales Charge is 2.00% of the NAV per Unit and GST is 0.00% of the Sales Charge.

Sales Charges

$$\begin{aligned}
 &= 2.00\% \times (\text{amount to be invested}) \\
 &= 2.00\% \times \text{RM}10,000 \\
 &= \text{RM}200
 \end{aligned}$$

$$\begin{aligned}
 \text{GST on Sales Charges} &= 0.00\% \times \text{Sales Charges} \\
 &= 0.00\% \times \text{RM200} \\
 &= \text{RM0}
 \end{aligned}$$

Total amount the Unit Holder will have to pay:

$$\begin{aligned}
 \text{Amount to be invested} + \text{Sales Charge} + \text{GST on Sales Charge} &= \text{RM10,000} + \text{RM200} + \text{RM0} \\
 &= \text{RM10,200}
 \end{aligned}$$

Number of Units allocated to the Unit Holder

$$\begin{aligned}
 \text{Amount to be invested} / \text{NAV per Unit} &= \text{RM10,000} / \text{RM1.0000 (rounded up to 4 decimal places)} \\
 &= 10,000 \text{ Units}
 \end{aligned}$$

6.2.2 Illustration on how repurchase proceeds are calculated

Assuming a Unit Holder redeems 10,000 Units, the Repurchase Price is RM1.00, no Repurchase Charge is imposed and GST is 0.00% of the Repurchase Charge.

$$\begin{aligned}
 \text{Repurchase Charge} &= 0.00\% \times (\text{amount to be redeemed}) \\
 &= 0.00\% \times \text{RM10,000} \\
 &= \text{RM0}
 \end{aligned}$$

$$\begin{aligned}
 \text{GST on Repurchase Charge} &= 0.00\% \times \text{Repurchase Charge} \\
 &= 0.00\% \times \text{RM0} \\
 &= \text{RM0}
 \end{aligned}$$

Total amount the Unit Holder (repurchase proceeds) will receive:

$$\begin{aligned}
 \text{Amount to be redeemed} - \text{Repurchase Charge} - \text{GST on Repurchase Charge} &= \text{RM10,000} - \text{RM0} - \text{RM0} \\
 &= \text{RM10,000}
 \end{aligned}$$

2.3 Deductibility of expenses

Section 33(1) of the MITA allows expenses incurred "wholly and exclusively in the production of gross income" to be deductible against the gross income, e.g. interest incurred on a loan to finance investments can be deducted against the dividend or interest income from that investment.

In addition, Section 63B allows partial deduction for other non-direct expenses known as "permitted expenses". "Permitted expenses" comprise the manager's remuneration, charges for maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage. The amount deductible is calculated based on the formula below:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividends, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividends and interest (whether such dividend or interest is exempt or not), rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period.

Dividend income is deemed to include income distributed by a unit trust for the purpose of calculating the above deduction.

The special deduction of expenses is subject to a minimum of 10% of the total permitted expenses incurred for that basis period. The allowable portion of permitted expenses will be deducted from the aggregate income. Should the deduction exceeds the income assessable to tax, the excess is not allowed to be carried forward for offset against the income of future years of assessment.

2.4 Real Property Gains Tax ("RPGT")

Generally, gains on disposal of investments by the Fund will not be subject to Income Tax in Malaysia as mentioned in 2.2(a).

Nevertheless, capital gains from disposals of chargeable assets, such as real properties or shares in real property companies will be subject to RPGT as follows:

- (a) Gains arising from disposals made within 3 years from the date of acquisition of the chargeable assets are subject to RPGT at the rate of 30%;
- (b) Gains arising from disposals made between the 4th year from the date of acquisition of the chargeable assets are subject to RPGT at the rate of 20%;
- (c) Gains arising from disposals made between the 5th year from the date of acquisition of the chargeable assets are subject to RPGT at the rate of 15%;
- (d) Gains arising from disposals made after 5 years from the date of acquisition of the chargeable assets are subject to RPGT at the rate of 5%.

[Schedule 5 of the Real Property Gains Tax Act 1976]

2.5 Goods and Services Tax ("GST")

Pursuant to the Goods and Services Tax (Exempt Supply) Order 2014, the issuance of any units under a trust fund is determined as exempt supplies. The Fund, being a trust fund, will be making exempt supplies and hence it is not required to be registered for GST purposes.

In respect of any GST expenses paid by the Fund on management fees, trustee fees and other expenses, the input tax which may be incurred are generally not claimable or recoverable by the Fund. The GST rate is 6% from 1 April 2015 to 31 May 2018. With effect from 1 June 2018, the applicable GST rate is to be revised from 6% to 0%.

3. TAXATION OF UNIT HOLDERS

3.1. Distribution of taxable income

The general provisions under the MITA are applicable to income received by unit holders. In addition, the tax treatments for unit holders are explained in the IRBM's Public Ruling 5/2013 – Taxation of Unit Holders of Unit Trust Funds dated 23 May 2013. Unit holders will be taxed on their share of the total taxable income of the Fund distributed to them. This income distribution carries with it a tax credit for the tax paid by the Fund on its taxable income. This tax credit may be utilised by the unit holders to set off the tax payable by them pursuant to Section 110(9A) of the MITA. The tax authorities will refund any excess of tax credit over tax chargeable to the unit holders.

Distributions of income from the Fund received by individuals and other non-corporate unit holders who are residents in Malaysia for tax purposes will be taxed at graduated rates from 1% to 28%. Individuals and other non-corporate unit holders who are not resident in Malaysia, will be subject to tax at the non-resident rate applicable of 28% on the distributions of income received.

Corporate unit holders, whether resident or not resident in Malaysia, will be subject to tax at the corporate tax rate of 24% on the distributions of income from the Fund received by them. For small and medium scale companies with a paid-up capital of RM2.5 million and below (SME), the corporate tax rate of 18% is applicable on chargeable income of up to RM500,000 and 24% on the amount exceeding RM500,000. However, a company with a paid-up capital of not exceeding RM2.5 million will not qualify as a SME under the following circumstances:

- i. more than 50% of the paid up capital in respect of ordinary shares of the company is directly or indirectly owned by a "related company";
- ii. more than 50% of the paid up capital in respect of the ordinary shares of the "related company" is directly or indirectly owned by the first mentioned company; or

- iii. more than 50% of the paid up capital in respect of the ordinary shares of the first mentioned company and the "related company" is directly or indirectly owned by another company.

"Related company" is defined as a company which has a paid-up capital exceeding RM2.5 million in respect of ordinary shares at the beginning of the basis period for a year of assessment.

3.2 Distribution of tax exempt income

Distributions of tax exempt income by the Fund from gains from realisation of investments, exempted interest/discount income, exempted dividends including single tier dividends and foreign sourced income, will be exempted from tax in the hands of the unit holders.

3.3 Unit splits and sale, transfer or redemption of units

Unit splits issued by the Fund is not taxable in the hands of the unit holders. Any gains realised by unit holders (other than dealers in securities, insurance companies or financial institutions) from the sale, transfer or redemption of the units are treated as capital gains and thus, will not be taxable.

However, the gains realised by a person trading or dealing in securities, insurance companies or financial institutions are generally regarded as business income and are subject to income tax.

We hereby confirm that, as at the date of this letter, the statements made correctly reflect our understanding of the tax position under the current Malaysian income tax legislation and the related interpretation and practice thereof, all of which are subject to change, possibly on a retrospective basis. In addition, unit holders are advised to seek professional advice on their respective tax positions.

Yours faithfully
