PLEASE NOTE THAT THE FUND IS A MULTI-CLASS FUND. AS SUCH, THE FUND MAY OFFER NEW CLASS(ES) FROM TIME TO TIME WITHOUT YOUR PRIOR CONSENT PROVIDED THAT THE CURRENCY DENOMINATION OF THE CLASS(ES) IS THE SAME AS THE BASE CURRENCY OF THE FUND.

3.2 INVESTMENT OBJECTIVE

The Fund seeks to achieve higher returns than Maybank 12-month Islamic fixed deposit rate over the medium to long term, while preserving capital* and providing an opportunity for income.

Note:

* *Opus Shariah IPF is neither a capital guaranteed fund nor a capital protected fund.*

Any material change to the investment objective of the Fund will require Unit Holders' approval.

3.3 INVESTMENT POLICY AND STRATEGY

The Fund seeks to achieve its objective by investing a minimum of 70% of its NAV in RM-denominated sukuk such as RM-denominated sukuk issued by corporate entities or financial institutions and/or issued or guaranteed by the Malaysian government, BNM, government-related entities and/or quasi-government related entities. The Fund may invest in RM-denominated sukuk that are listed, unlisted, rated, unrated, convertible, perpetual or callable

sukuk. In respect of convertible sukuk which the Fund may invests in, we may dispose of such convertible sukuk prior to conversion. In the event we convert the sukuk, we will dispose such securities within 3 months from the date of conversion.

The Fund's investment maturity profile is subject to active maturity structure management based on the profit rate outlook without any portfolio maturity limitation. The Fund may invest in sukuk with varying maturities.

Our trading strategy is based on fundamental research rather than frequent trading. We will switch our investment in sukuk if we are of the view that there has been a change in duration, sector or credit outlook of the sukuk. Credit quality, value and yield-spread are considered collectively.

We will invest in RM-denominated sukuk or its issuers which have a minimum credit rating of at least AA3 or P2 by RAM (or equivalent rating by MARC or by any other reputable credit rating agency) at the time of purchase. In the event of a credit downgrade, we reserve the right to deal with the sukuk in the best interest of Unit Holder. For example, we may continue to hold the downgraded sukuk if the immediate disposal of such sukuk would not be in the best interest of the Unit Holders.

If the RM-denominated sukuk which the Fund intends to invest in or its issuers are unrated, we may only invest in those RM-denominated sukuk or issuers which have been approved by our internal credit committee.

The Fund may invest up to 30% of its NAV in Other RM-denominated Shariah-compliant Instruments (of which up to 15% of its NAV may be invested in Islamic structured products).

Investments in Islamic structured products and Islamic derivatives

The Fund may invest up to 15% of its NAV in Islamic structured products issued by a single counter-party in Islamic fixed income related structured products. Investment into these Islamic structured products will provide the Fund with exposure to the reference asset. Each of these Islamic structured products has its own targeted maturity and will expose investors to the price fluctuations of the reference asset that the Islamic structured product is linked to. Any fluctuation in the price of the Islamic structured product may also lead to fluctuations in the NAV of the Fund, i.e. if the price of the Islamic structured product drops, the NAV of the Fund will also be negatively impacted. As the Fund may invest up to 15% of its NAV in Islamic structured products, investors should be aware that there is a likelihood for the NAV per Unit to experience high volatility.

As the Islamic structured product is structured by an external party, investments into an Islamic structured product will also expose the Fund to counterparty risk, which we will attempt to mitigate by carrying out a stringent selection process on its counterparty prior to an investment being made.

Islamic derivative trades may be carried out for hedging purposes only through financial instruments including, but not limited to, Islamic profit rate swaps, Islamic forward contracts and Islamic futures contracts.

Temporary Defensive Position

We may take temporary defensive positions that may be inconsistent with the Fund's investment strategy in attempting to respond to certain adverse conditions which include but not limited to adverse market, economic and political conditions, insufficient funds to form an efficient portfolio, periods of high repurchases or any other adverse conditions in order to preserve the NAV of the Fund. By taking a temporary defensive position, we will reduce the Fund's investment exposure in sukuk and hold more cash. The cash will be placed in Islamic deposits with financial institutions to reduce the exposure during market downturn and to help preserve the Fund's capital and mitigate losses.

We are allowed to implement temporary defensive positions up to a maximum of 3 months from the date the temporary defensive positions is implemented.

3.4 ASSET ALLOCATION

- A minimum of 70% of its NAV in RM-denominated sukuk; and
- Up to 30% of its NAV in Other RM-denominated Shariah-compliant Instruments (of which up to 15% of its NAV may be invested in Islamic structured products).

3.5 DISTRIBUTION POLICY

Class of Units	Distribution Policy
Class A	This Class intends to distribute income, if any, at least once a year.
Class B	This Class is not expected to make any distribution.

Applicable to Class A only

However, we reserve the right not to distribute at our absolute discretion if it is not in the best interests of the Unit Holders.

The Fund may distribute from realised income, realised gains and/or capital. The rationale for distributing out of the Fund's capital is to allow the Fund the flexibility to (i) declare distribution in unforeseen circumstances where the Fund has insufficient realised gains and/or realised income to do so, or (ii) increase the amount of distributable income to the Unit Holders, after taking into consideration the risk of distributing out of capital.

Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the Unit Holders' original investment and may also result in reduced future returns to the Unit Holders. When a substantial amount of the original investment is being returned to the Unit Holders, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.

Please refer to Section 6.9 of this Prospectus for information regarding the mode of distribution.

3.6 PERFORMANCE BENCHMARK

Maybank 12-month Islamic fixed deposit rate.

Source: Malayan Banking Berhad.

Note: Please note that the risk profile of the Fund may be higher than the risk profile of the benchmark.

3.7 PERMITTED INVESTMENTS

- Sukuk issued by corporate entities or financial institutions;
- Sukuk issued or guaranteed by Malaysian government, BNM, government related entities and/or quasi-government related entities;
- Islamic money market instruments;

- Islamic deposits;
- Islamic treasury products such as Islamic negotiable instruments issued by financial institutions;

3.8 INVESTMENT RESTRICTIONS AND LIMITS

The Fund will be managed in accordance with the following investment restrictions and limits:

Exposure Limits

1. The aggregate value of the Fund's investments in sukuk that are not traded or dealt in or under the rules of an eligible market must not exceed 15% of the Fund's NAV, subject to a maximum limit of 10% of the Fund's NAV in a single issuer.

Investment Spread Limits

2. The value of the Fund's investments in sukuk and Islamic money market instruments issued by any single issuer must not exceed 20% of the Fund's NAV ("single issuer limit"). In determining the single issuer limit, the value of the Fund's investments in instruments in paragraph 1 issued by the same issuer must be included in the calculation. The single issuer limit may be increased to 30% of the Fund's NAV if the sukuk is rated by any Malaysian or global rating agency to have the highest long term credit rating.
3. The value of the Fund's investments in sukuk and Islamic money market instruments issued by any group of companies must not exceed 30% of the Fund's NAV ("group limit"). In determining the group limit, the value of the Fund's investments in instruments in paragraph 1 issued by the issuers within the same group of companies must be included in the calculation.
4. The value of the Fund's placement in Islamic deposits with any single financial institution must not exceed 20% of the Fund's NAV. The single financial institution limit does not apply to placements of Islamic deposit arising from:
 - (a) subscription monies received prior to the commencement of investment by the Fund;
 - (b) liquidation of investments prior to the termination of the Fund, where the placement of Islamic deposits with various financial institutions would not be in the best interests of the Unit Holders; or
 - (c) monies held for the settlement of repurchase or other payment obligations, where the placement of Islamic deposits with various financial institutions would not be in the best interests of the Unit Holders.
5. The aggregate value of the Fund's investments in, or exposure to, a single issuer through sukuk, Islamic money market instruments, Islamic deposits, underlying assets of Islamic derivatives and counterparty exposure arising from the use of over-the-counter Islamic derivatives must not exceed 25% of the Fund's NAV ("single issuer aggregate limit"). In determining the single issuer aggregate limit, the value of the Fund's investments in instruments in paragraph 1 issued by the same issuer must be included in the calculation. Where the single issuer limit is increased to 30% pursuant to paragraph 2, the single issuer aggregate limit may be raised to 30% of the Fund's NAV.

6. The value of the Fund's investments in units or shares of an Islamic collective investment scheme that complies with the requirements of the Guidelines must not exceed 20% of the Fund's NAV.
7. The value of the Fund's investments in units or shares of an Islamic collective investment scheme that invests in real estate and complies with the requirements of the Guidelines must not exceed 15% of the Fund's NAV.

Investment Concentration Limits

8. The Fund's investments in sukuk must not exceed 20% of the sukuk issued by a single issuer. This limit may be disregarded at the time of acquisition if at that time of acquisition the gross amount of sukuk in issue cannot be determined.
9. The Fund's investments in Islamic money market instruments must not exceed 10% of the instruments issued by any single issuer. This limit does not apply to Islamic money market instruments that do not have a pre-determined issue size.
10. The Fund's investments in Islamic collective investment scheme must not exceed 25% of the units or shares in the Islamic collective investment scheme.

Islamic Derivatives

11. For investment in Islamic derivatives:
 - the Fund's global exposure from Islamic derivatives position should not exceed the Fund's NAV.
 - the exposure of the underlying assets of the Islamic derivatives must not exceed the investment spread limits stipulated in the Guidelines;
 - the maximum exposure of the Fund's OTC Islamic derivative transactions with the counterparty calculated based on the method as set out in Section 3.11 below must not exceed 10% of the Fund's NAV;
 - the counterparty of an OTC Islamic derivatives is a financial institution with a minimum long-term credit rating of investment grade (including gradation and subcategories); and
 - where the underlying instrument of an Islamic derivative is a commodity, such derivative must be settled in cash at all times.

The above limits and restrictions shall be complied with at all times based on the most up-to-date value of the Fund's investments. We will notify the SC within 7 Business Days of any breach of investment limits and restrictions with the steps taken to rectify and prevent such breach from recurring.

However, any breach as a result of any appreciation or depreciation in value of the Fund's investments, repurchase of Units or payment made out of the Fund, change in capital of a corporation in which the Fund has invested in, or downgrade in or cessation of a credit rating, will not be reported to the SC but will be rectified by us as soon as practicable within 3 months from the date of the breach, unless otherwise specified in the Guidelines.

The 3-month period may be extended if it is in the best interest of the Unit Holders and the Trustee's consent is obtained. Such extension will be subject to at least a monthly review by the Trustee.

All the restrictions and limits stated above do not apply to Shariah-compliant instruments issued or guaranteed by the Malaysian government or BNM.

3.9 SHARIAH INVESTMENT GUIDELINES FOR THE FUND

Tawafuq adopts the following methodologies in determining the Shariah status of investments of the Fund.

3.9.1 Shariah Investment Guidelines

Sukuk and Islamic money market instruments

Investment in sukuk and / or Islamic money market instruments will be verified against the data available at “Fully Automated System For Issuing/Tendering” (<https://fast.bnm.gov.my>).

Investment/placement in Islamic banking products

Investment in Islamic banking products such as Islamic structured products, Islamic derivatives, Islamic treasury products, etc., and placement in Islamic deposit or Islamic current account will be verified against licensed financial institutions offering such facilities and as approved by the SAC of BNM.

3.9.2 Cleansing Process for the Fund

Wrong Investment

Refers to Shariah non-compliant investment made by the Manager. The said investment is to be disposed of/withdrawn with immediate effect or within a month of knowing the status of the investments. Should the disposal resulted in gain (through capital gain and/or dividend/interest) before or after the disposal of the investment, it is to be channelled to baitulmal and/or any other charitable bodies as advised by the Shariah Adviser. The Fund has a right to retain only the investment cost. However, should the disposal resulted in a loss to the Fund, the same will be borne by the Manager.

3.9.3 Zakat (tithe) for the Fund

The Fund does not pay zakat on behalf of Muslim individuals and Islamic legal entities. Thus, investors are advised to perform the zakat obligation on their own.

The investment portfolio of the Fund will comprise instruments that have been classified as Shariah-compliant by the SAC of the SC and where applicable, the SAC of BNM. For instruments that are not classified as Shariah-compliant by the SAC of the SC and where applicable, the SAC of BNM, the status of the instruments has been determined in accordance with the ruling issued by the Shariah Adviser.

3.10 POLICY ON GEARING FOR THE FUND

The Fund will not obtain cash financing or borrow other assets (including those within the meaning of the Securities Borrowing and Lending Guidelines) in connection with its activities.

3.11 USE OF ISLAMIC DERIVATIVES

Calculation of Global Exposure to Islamic Derivatives

The global exposure of the Fund is calculated based on commitment approach and is calculated as the sum of:

- (a) the absolute value of the exposure of each individual Islamic derivative not involved in netting or hedging arrangements;
- (b) the absolute value of the net exposure of each individual Islamic derivative after netting or hedging arrangements; and
- (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC Islamic derivatives.

Netting and hedging arrangements may be taken into account to reduce the Fund's exposure to Islamic derivatives.

Netting arrangements

The Fund may net positions between:

- (a) Islamic derivatives on the same underlying constituents, even if the maturity dates are different; or
- (b) Islamic derivatives and the same corresponding underlying constituents, if those underlying constituents are Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic collective investment schemes.

Hedging arrangements

The marked-to-market value of Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic collective investment schemes involved in hedging arrangements may be taken into account to reduce the exposure of the Fund to Islamic derivatives.

The hedging arrangement must:

- (a) not be aimed at generating a return;
- (b) result in an overall verifiable reduction of the risk of the Fund;
- (c) offset the general and specific risks linked to the underlying constituent being hedged;
- (d) relate to the same asset class being hedged; and
- (e) be able to meet its hedging objective in all market conditions.

Calculation of Exposure to Counterparty of OTC Islamic derivatives

The exposure to a counterparty of an OTC Islamic derivative must be measured based on the maximum potential loss that may be incurred by the Fund if the counterparty defaults and not on the basis of the notional value of the OTC Islamic derivative.

The total exposure to a single counterparty is calculated by summing the exposure arising from all OTC Islamic derivative transactions entered into with the same counterparty.

Subject to the aggregate limit under the "Investment Restrictions and Limits" as set out in Section 3.8, the maximum exposure of the Fund to the counterparty, calculated based on the above method, must not exceed 10% of the Fund's NAV.

4. RISK FACTORS

4.1 GENERAL RISKS OF INVESTING IN THE FUND

Market risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets due to economic, political and/or other factors which will result in a decline in the Fund's NAV.

Fund management risk

This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Returns are not guaranteed

There is no guarantee that investing in the Fund will produce the desired investment returns.

Inflation risk

This is the risk that investors' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce the investors' purchasing power even though the value of the investment in monetary terms has increased.

Operational risk

This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error (for instance the keying of wrong details), system failure (causing unnecessary downtime) or even fraud (where our employees collude with one another). Whilst this risk may not necessarily cause monetary loss to the Fund, Unit Holders cannot discount the risk that losses may be suffered by the Fund if the breakdown is sufficiently serious. We will regularly review our internal policies and system capability to mitigate the occurrence of this risk.

Risk of non-compliance

Although it is our intention to observe all rules governing the Fund at all times, both external factors (adverse market conditions, natural disasters or political instability) and internal factors (oversight by the fund manager, a lapse in the compliance function, or a clerical error) could impact our ability to observe rules governing the Fund. Whilst non-compliance with the rules governing the Fund will not necessarily result in losses to the Fund, Unit Holders cannot discount the risk that losses may be suffered by the Fund if the non-compliance with the rules is sufficiently serious.

Financing Risk

This risk occurs when you take a financing to finance your investment. The inherent risk of investing with financed money includes you being unable to service the financing instalment. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing facility.

4.2 SPECIFIC RISKS OF INVESTING IN THE FUND

Credit and default risk

Credit risk relates to the creditworthiness of the issuers of the sukuk and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the sukuk. In the case of rated sukuk, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a sukuk either defaulting

on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the sukuk. This could adversely affect the value of the Fund.

Interest rate risk

Interest rate risk refers to the impact of interest rate changes on the valuation of the sukuk and Islamic money market instruments. When interest rate rise, the pricing of sukuk and Islamic money market instruments prices may decline and lower the market value of the Fund's investment in sukuk and Islamic money market instruments. The reverse may apply when interest rates fall. In order to mitigate interest rate risk, we will manage the sukuk and Islamic money market instruments taking into account the profit rate and time to maturity of the sukuk and Islamic money market instruments.

Note: Interest rate is a general indicator that will have an impact on the management of the Fund regardless whether it is an Islamic fund or otherwise. It does not in any way suggest that this Fund will invest in conventional financial instruments.

Counterparty risk

Counterparty risk is the risk to each party of a contract that the counterparty will fail to perform its contractual obligations and/or to respect its commitments under the term of such contract, whether due to insolvency, bankruptcy or other cause. In this regard, the Fund may be exposed to risks arising from the solvency of its counterparties and from its inability to respect the conditions of the contracts.

Liquidity risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.

This risk may also arise during periods of unexpected high repurchase requests by Unit Holders. We may be forced to withdraw the Fund's assets prior to their maturity. Such premature withdrawal will have an impact on the NAV per Unit and in turn, your investments through the risk of reduced returns and in some cases loss of capital invested in the Fund.

Islamic derivative risk

We may use Islamic derivatives for hedging purposes only. Valuation of Islamic derivatives takes into account a multitude of factors such as movement of the underlying assets, the correlation of the underlying assets with the Fund, the implied future direction of the underlying assets and other factors. Any diverse changes of the factors mentioned above, may result in a lower NAV price and higher volatility for the Fund's NAV. When participating in Islamic derivatives, we will monitor the valuation of the Islamic derivatives and credit ratings of the financial institutions as counterparty to the instruments, where applicable, and take appropriate actions to mitigate any risk associated with such instruments. This may extend to unwinding of the Islamic derivatives in the event where there is a need to terminate current position due to reversal in market movement, repurchases in Units or upon downgrade of the credit ratings of the financial institutions.

Islamic structured products risk

The NAV of the Fund will be impacted by the valuation of the Islamic structured products. Factors that may impact the valuation of the Islamic structured products will include, but not limited to movement of the underlying asset, volatility of the underlying assets, interest rate levels, the correlation of the underlying assets and other such factors. Any change in the aforesaid factors would either positively or negatively impact the valuation of the Islamic structured products hence impacting the NAV of the Fund. As such, the Fund's NAV will be exposed to potential price volatility, which will be dependent on the valuation of the Islamic structured products that the Fund invested in.

Unrated sukuk and Islamic money market instruments risk

Unrated sukuk or Islamic money market instruments can be less liquid than rated sukuk or Islamic money market instruments. Many of the unrated sukuk or Islamic money market instruments are traded over-the-counter and/or do not trade frequently compared to rated sukuk

or Islamic money market instruments. When the unrated sukuk or Islamic money market instruments do trade, their prices may be significantly higher or lower than expected. At times, it may be difficult to sell unrated sukuk or Islamic money market instruments promptly at an acceptable price, which may limit the Fund's ability to sell these instruments in response to specific economic events.

Unrated sukuk or Islamic money market instruments may pay higher profit rate than rated sukuk or Islamic money market instruments of comparable quality. As a result, unrated sukuk or Islamic money market instruments are subject to greater risk of illiquidity or sudden price changes. Public information on unrated sukuk or Islamic money market instruments or their issuers is typically less available as compared with rated sukuk or Islamic money market instruments.

Shariah non-compliance risk

There is a risk that the Fund may suffer losses when we have to dispose of any investments to rectify any Shariah non-compliance. If this occurs, the value of the Fund may be adversely affected. This risk is, however, mitigated through the appointment of Shariah Adviser, who will be responsible to ensure that the Fund is managed and administered in accordance with the Shariah Investment Guidelines set out in Section 3.9 of this Prospectus.

Deferment/suspension of repurchase risk

For the purpose of managing the liquidity of the Fund, the Fund may defer the repurchase of Units to the next Business Day if the total net repurchases received by us is more than 10% of the NAV of the Fund on a particular Business Day. When such repurchase limit is triggered, it may affect the Fund's ability to meet Unit Holders' repurchase request and may lead to a delay in repayment of repurchase proceeds to the Unit Holders.

The Manager may, in consultation with the Trustee and having considered the interests of Unit Holders, suspend the dealings in Units of the Fund due to exceptional circumstances, for example, when the market value or fair value of a material portion of the Fund's assets cannot be determined. In such event, Unit Holders will not be able to repurchase their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.

Capital Distribution Risk

The Fund may distribute income out of its capital. The declaration and payment of distribution may have the effect of lowering the NAV of the Fund. In addition, distribution out of the Fund's capital may reduce part of the Unit Holders' original investment and/or capital gains attributable to the original investments and may also result in reduced future returns to Unit Holders.

Cyber Security Risk (for Class B only)

This is the risk arising from cyber-attack on e-service provider's mobile application or e-platform. Should the e-service provider's mobile application or e-platform be compromised, it may result in unauthorised transactions pertaining to the Fund. Further to that, your investment-related information and personal data may be leaked. All transactions through the e-service provider's mobile application or e-platform and/or the Fund may be temporarily suspended, in which you may not be able to transact through the e-service provider's mobile application or e-platform or in the Fund due to the cyber-attack.

Functionality Risk (for Class B only)

This is the risk that the e-service provider's mobile application or e-platform does not operate as intended due to factors including but not limited to connectivity and interface issues. If the e-service provider's mobile application or e-platform does not function as expected, your transaction through the e-service provider's mobile application or e-platform may not be correctly processed and/or completed.

Risk associated with discontinuation risk on the e-service provider's mobile application or e-platform (for Class B only)

As all the transactions are done through the mobile application or e-platform developed by the e-service provider, the continuous operation of the e-service provider is crucial. The

discontinuation of services provided by the e-service provider may be due to but not limited to revocation of its license. Should such event happen, repurchase from the Fund may be delayed.

4.3 RISK MANAGEMENT STRATEGIES

There are generally 4 main risks in Islamic fixed income investments of the Fund. OpusAM applies the following risk management strategies for the respective risks involved:

Risk	OpusAM's strategies to mitigate investment risks
Credit and Default Risk	<ul style="list-style-type: none"> ▪ Mitigate by rigorous credit analysis and disciplined investment process. ▪ Focus on investment grade issues. ▪ Optimal portfolio diversification. ▪ Review and assess on regular basis by analysts and fund managers. ▪ Corporate actions are monitored regularly and discussed in the credit meeting.
Interest Rate Risk	<ul style="list-style-type: none"> ▪ Diversify through different maturities. ▪ Adjust maturity structure based on the interest rate outlook. ▪ Shortening of maturity when interest rates are expected to rise.
Liquidity Risk	<ul style="list-style-type: none"> ▪ Mitigate by investing mainly in investment grade issues. ▪ Maturity mixed to meet liquidity requirements. ▪ Measure and monitor daily by fund management and operations department. ▪ Table quarterly to the person(s) or members of a committee undertaking oversight function of the Fund.
Shariah Non-compliance Risk	<ul style="list-style-type: none"> ▪ The Shariah Adviser is appointed to provide Shariah expertise and guidance on all matters relating to the Fund and to ensure the Fund is managed and operated in accordance with Shariah principles.

Liquidity Risk Management Policy

In managing the liquidity risk of the Fund to meet repurchase requests from the Unit Holders as well as to safeguard the interests of the remaining Unit Holders, we have put in place the following procedures:

- (a) ensuring the Fund maintains sufficient liquid assets to meet repurchase requests from Unit Holders;
- (b) the designated fund manager will regularly review the liquidity profile of the Fund's assets; and
- (c) the Fund's net flows against repurchase requests will be monitored during normal and adverse market conditions to ensure the Fund has sufficient cash holdings to mitigate any potential risk in not being able to meet the repurchase requests from Unit Holders.

As part of our liquidity risk management, we may defer the repurchase of Units if: (i) the total net repurchases received by us is more than 10% of the NAV of the Fund on a particular Business Day; and (ii) the Fund does not have sufficient liquidity to meet the repurchase requests. We may defer the repurchase of Units in excess of such 10% limit to the next Business Day and such repurchase requests will be effected in priority to later repurchase requests. We will pay the repurchase proceeds on a staggered basis based on the repurchase price as and when the Fund's investments are liquidated and the Units are repurchased. When such repurchase limit is imposed on the Unit Holders, we will inform the Unit Holders in a timely and appropriate manner of the deferment of repurchase, and the repurchase proceeds will be paid within seven (7) Business Days from the date on which the Units is repurchased.

However, if we have exhausted all possible avenues (including deferment of repurchase requests when the total net repurchases received by us is more than 10% of the NAV of the Fund on a particular Business Day, if applicable) to avoid a suspension of the Fund, we may as a last resort, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the sale (if applicable) and repurchase of Units under exceptional circumstances, where the market value or the fair value of a material portion of the Fund's assets cannot be determined. Where such suspension is triggered, we will inform all Unit Holders in a timely and appropriate manner of our decision to suspend the dealing in Units. During the suspension period, the repurchase requests from the Unit Holders will not be accepted and such repurchase requests will only be processed on the next Business Day once the suspension is lifted. Please refer to Section 6.11 for more information on suspension of dealings in Units.

IT IS IMPORTANT TO NOTE THAT AN INVESTMENT IN THE FUND CARRIES RISKS AND THE ABOVE LIST OF RISKS MAY NOT BE EXHAUSTIVE. WHILE EVERY CARE WILL BE TAKEN BY THE MANAGER TO MITIGATE THE RISK, INVESTORS ARE ADVISED THAT IT IS NOT ALWAYS POSSIBLE TO PROTECT INVESTMENTS AGAINST ALL RISKS.

INVESTORS ARE RECOMMENDED TO READ THE WHOLE PROSPECTUS TO ASSESS THE RISKS OF THE FUND AND IF NECESSARY, THEY SHOULD CONSULT THEIR ADVISERS, E.G. THEIR BANKERS, SHARIAH ADVISERS, LAWYERS, TAX ADVISERS OR INDEPENDENT INVESTMENT ADVISERS FOR A BETTER UNDERSTANDING OF THE RISKS.

6.1.2 Valuation of the Fund

We will value the Fund at 6.00 p.m. on every Business Day.

6.1.3 Single Pricing Policy

We adopt a single pricing policy in calculating your application for and repurchase of Units. Single pricing equates to sales and repurchases quoted and transacted on a single price (i.e., the Initial Offer Price during the Initial Offer Period and the NAV per Unit after the Initial Offer Period).

The NAV per Unit is valued daily at the next valuation point on a forward pricing basis.

6.1.4 Policy on Rounding Adjustment

In calculating your investments with us, the Units allocated to you will be calculated based on the NAV per Unit which is also the Selling Price and Repurchase Price of the Class that has been rounded to 4 decimal places. When you invest in the Fund, the investment amount payable by you will be rounded to 2 decimal places. We will allocate Units in your account by rounding off to the nearest 4 decimal places.

6.1.5 Incorrect Pricing

We shall take immediate action to rectify any incorrect valuation and pricing of the Fund and/or the Units and to notify the Trustee and the relevant authorities of the same unless the Trustee considers the incorrect valuation and pricing of the Fund and/or the Units is of minimal significance. An incorrect valuation and pricing of the Fund and/or the Units shall result in a reimbursement of moneys unless the Trustee considers that such incorrect valuation and pricing of the Fund and/or the Units is of minimal significance.

The Trustee shall not consider an incorrect valuation and pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit of the Class unless the total impact on your account for the Class is less than RM10.00. An incorrect valuation and pricing not considered to be of minimal significance by the Trustee shall result in reimbursement of moneys in the following manner:

- (a) if there is an over valuation and pricing in relation to the purchase and creation of Units, the Fund shall reimburse you;
- (b) if there is an over valuation and pricing in relation to the repurchase of Units, we shall reimburse the Fund;
- (c) if there is an under valuation and pricing in relation to the purchase and creation of Units, we shall reimburse the Fund; and
- (d) if there is an under valuation and pricing in relation to the repurchase of Units, the Fund shall reimburse you or former Unit Holder.

6.2 COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund means the total value of the Fund's assets less the Fund's expenses or liabilities incurred or accrued for the day.

Below is an illustration on how the NAV of the Fund is calculated:

	Fund (MYR)	Class A (MYR)	Class B (MYR)
Value of the Fund/Class	10,000,000.00	5,000,000.00	5,000,000.00
Multi-class ratio[^]	100%	50%	50%
Add: Income	100,000.00	50,000.00	50,000.00
Less: Liabilities	50,000.00	25,000.00	25,000.00
NAV before deducting management fee and trustee fee for the day	10,050,000	5,025,000	5,025,000
Less: Management fee for the day	234.04	(5,025,000 x 0.85% / 365) 117.02	(5,025,000 x 0.85% / 365) 117.02
Less: Trustee fee for the day	6.88	(5,025,000 x 0.025% / 365) 3.44	(5,025,000 x 0.025% / 365) 3.44
Total NAV	10,049,759.08	5,024,879.54	5,024,879.54

[^]Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular valuation day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

NAV per Unit

The NAV per Unit is calculated by dividing the NAV of the Class by the total number of Units in circulation of that Class as at the valuation point.

Below is an illustration on how the NAV per Unit of a Class is calculated:

	Fund (MYR)	Class A (MYR)	Class B (MYR)
NAV	10,049,759.08	5,024,879.54	5,024,879.54
Divide: Units in circulation		5,000,000	5,000,000
NAV per Unit of the Class		RM 1.0050	RM 1.0050

The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.

6.2.1 Illustration on how Units are allocated

Assuming a Unit Holder of Class A invests RM10,000 in the Fund, the Selling Price of Class A is RM1.00 and the Sales Charge is 2.00% of the NAV per Unit.

$$\begin{aligned}\text{Sales Charge} &= 2.00\% \times (\text{amount to be invested}) \\ &= 2.00\% \times \text{RM}10,000 \\ &= \text{RM}200\end{aligned}$$

Total amount the Unit Holder will have to pay:

$$\begin{aligned}\text{Amount to be invested} + \text{Sales Charge} &= \text{RM}10,000 + \text{RM}200 \\ &= \text{RM}10,200\end{aligned}$$

Number of Units allocated to the Unit Holder

$$\begin{aligned}\text{Amount to be invested} / \text{Selling Price} &= \text{RM}10,000 / \text{RM}1.0000 \text{ (rounded up to 4} \\ &\text{decimal places)} \\ &= 10,000 \text{ Units}\end{aligned}$$

6.2.2 Illustration on how repurchase proceeds are calculated

Assuming a Unit Holder of Class A repurchases 10,000 Units, the Repurchase Price is RM1.00 and no Repurchase Charge is imposed.

$$\begin{aligned}\text{Repurchase Charge} &= 0.00\% \times (\text{amount to be repurchased}) \\ &= 0.00\% \times \text{RM}10,000 \\ &= \text{RM}0\end{aligned}$$

Total amount the Unit Holder (repurchase proceeds) will receive:

$$\begin{aligned}\text{Amount to be repurchased} - \text{Repurchase Charge} &= (10,000 \text{ Units} \times \text{RM}1.00) - \text{RM}0 \\ &= \text{RM}10,000\end{aligned}$$

11. RELATED PARTY TRANSACTIONS AND CONFLICT OF INTERESTS

Related Party Transaction

The Manager

As at 30 November 2025, we are not aware of any existing related party transactions or conflict of interest situations involving the Fund, save for the transaction as disclosed below:

- Opus Services Sdn Bhd provides fund accounting and fund valuation services for the Fund. Both Opus Services Sdn Bhd and the Manager are within the same group of companies.

We have in place policies and procedures to deal with any conflict of interest and/or related party transactions situations. All transactions with related parties are to be executed on terms which (i) are best available to the Fund and (ii) no less favourable to the Fund than an arm's length transaction between independent parties.

SCBMB Trustee Berhad

The Trustee may have related party transactions involving or in connection with the Fund in the following events:

- where the Fund invests in the products offered by SCBMB and any of its group of companies (e.g. money market placement, etc.);
- where the Manager appoints SCBMB to perform its back-office functions (e.g. fund accounting and valuation);
- where the Manager utilised the services offered by SCBMB (e.g., brokerage services, cash financing facility, etc.); and
- where the Trustee has delegated its custodian functions for the Fund to SCBMB.

The Trustee will rely on the Manager to ensure that any related party transactions, dealings, investments and appointments are on terms which are reasonably available for or to the Fund and are on an arm's length basis as if between independent parties. The Trustee has in place policies and procedures to prevent and manage any conflict of interest situations that may arise. While the Trustee has internal policies intended to prevent or manage conflicts of interests, no assurance is given that their application will necessarily prevent or mitigate conflicts of interests. The Trustee's commitment to act in the best interests of the Unit Holders does not preclude the possibility of related party transactions or conflicts.

Policy on dealing with conflict of interest

We will at all times act in your best interest and will not conduct ourselves in any manner that will result in a conflict of interest or potential conflict of interest. In the unlikely event that any conflict of interest arises, such conflict shall be resolved such that the Fund is not disadvantaged. We will not conduct transactions in any manner which will result in unnecessary costs or risk to the Fund.

In the unlikely event that we face conflicts in respect of our duties to the Fund and our duties to the other funds that we manage, we are obliged to act in the best interests of our investors and will seek to resolve any conflicts fairly and in accordance with the Deed and the relevant laws.

Cross Trade Policy

To provide more liquidity in the dealing of securities, we may carry out transactions between the Fund and the investment portfolios of our other customers ("cross-trades") provided always that any such cross-trades are conducted on a best execution basis and are no less favourable to the Fund when compared to an arm's length transaction between independent parties.

We shall have full discretion to determine the price (or yield) on such trades by taking into consideration factors such as broker's valuation, bond pricing agencies, market quotes, odd lot

trades and market condition. We will decide the price which we believe to be a fair price to the seller, who will provide the securities in time of shortage and the buyer who will provide the liquidity in cash in time to the seller who wants to liquidate the securities or the portfolio. All cross-trades will be carried out in compliance with the relevant laws.

Notwithstanding the above, cross trades between the personal account of an employee of ours and the Fund's account(s) and between our proprietary trading accounts and the Fund's account(s) are strictly prohibited.

Other declaration

As at 30 November 2025, none of the advisers (i.e., the tax advisers, Shariah Adviser and solicitors) have any existing or potential conflicts of interest in an advisory capacity with the Fund and/or us.

TAXATION OF THE FUND AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Replacement Prospectus in connection with Opus Shariah Income Plus Fund ("the Fund").

The taxation of income for both the Fund and the Unit Holders are subject to the provisions of the Malaysian Income Tax Act, 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUND

The Fund will be regarded as resident for Malaysian tax purposes since the Trustee of the Fund is resident in Malaysia.

(1) Foreign Investments

Generally, gross foreign-sourced income, including capital gains, remitted to Malaysia by Malaysian resident unit trusts will be subject to Malaysian income tax at the prevailing rate, currently at 24%.

Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. Subject to meeting the relevant prescribed requirements, the Fund in Malaysia is entitled for double taxation relief on any foreign tax suffered on the income in respect of overseas investment.

Exemption from tax on foreign-sourced income (“FSI”) for unit trusts

The Income Tax (Unit Trust in relation to Income Received in Malaysia from Outside Malaysia) (Exemption) Order 2024 provides a Malaysian resident unit trust, exemption from tax on FSI from all sources of income received in Malaysia.

To qualify for this tax exemption, unit trusts must satisfy one of the following conditions:

- a. The FSI has been subjected to foreign tax, with the source jurisdiction's minimum headline income tax rate being at least 15%; or
- b. The management company of the unit trust has met Economic Substance Requirements in Malaysia, which includes employing an adequate number of employees and incurring sufficient operating expenditure.

The exemption from income tax on FSI takes effect from 1 January 2024 until 31 December 2026*.

[*Budget 2026 announced on 10 October 2025 proposed that the exemption be extended to 31 December 2030. However, this proposal has not been gazetted yet.]

(2) Domestic Investments

(i) General Taxation

Subject to certain exemptions, the income of the Fund consisting of dividends or interest or profit¹ (other than interest and profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains from disposal of Malaysian unlisted shares will be subject to Capital Gains Tax (“CGT”). Please refer to the CGT section below for further details.

(ii) Dividends and Other Exempt Income

Malaysian companies adopt the single-tier system. Hence dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. Dividends received from companies under the single-tier system would be exempted and there will not be any tax refunds available for single-tier dividends received.

The Fund may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund will not be taxable on such exempt income.

Interest or profit¹ derived from the following investments is exempt from tax:

- (a) Interest or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013;

¹ Under Section 2(7) of the Income Tax Act 1967, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah.

The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

- (b) Interest or profit² paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest or profit² paid or credited by Malaysia Building Society Berhad².

The interest or profit² or discount income exempted from tax at the Fund level will also be exempted from tax upon distribution to the Unit Holders.

Exception:

i. Wholesale money market fund

The exemption shall not apply to interest paid or credited to a unit trust that is a wholesale money market fund.

ii. Retail money market fund ("RMMF")

The interest or profit² income of a RMMF will remain tax exempted under Paragraph 35A, Schedule 6 of the Act. However, resident and non-resident Unit Holders (other than individual Unit Holders), who receive income distributed from interest or profit² income of the RMMF which are exempted under Paragraph 35A of Schedule 6, will be subject to withholding tax ("WHT") at the rate of 24 per cent.

The WHT is to be withheld and remitted by the RMMF to the tax authorities within 30 days upon distribution of the income to the Unit Holders.

(3) Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

² Exemption granted through letters from Ministry of Finance Malaysia dated 11 June 2015 and 16 June 2015 and it is with effect YA 2015.

(4) Real Property Gains Tax (“RPGT”)

Gains on disposal of real properties would be subject to RPGT as follows: -

Disposal time frame	RPGT rates (Companies incorporated in Malaysia and Trustee of a trust)
Within 3 years	30%
In the 4 th year	20%
In the 5 th year	15%
In the 6 th year and subsequent years	10%

Capital gains tax (“CGT”) will be applicable on the gains from sale of Malaysian unlisted shares instead. Please refer to the section on CGT.

(5) Capital Gains Tax (“CGT”)

CGT has been introduced in Malaysia and will be imposed on gains from the disposal of Malaysian unlisted shares by companies, Limited Liability Partnerships, cooperatives and trust bodies (which include unit trusts).

The CGT rate to be imposed is as follows:

Shares Acquisition Date	CGT Rate
Before 1 January 2024	The taxpayers may choose: i. 10% on the net gain of the disposal of shares; or ii. 2% on the gross disposal price.
From 1 January 2024	10% on the net gain of the disposal of shares

“shares” has been defined as in relation to a company, includes stock other than debenture stock.

Capital Gains Tax exemption - Income Tax (Unit Trust) (Exemption) Order 2024

Pursuant to the above gazette order, the exemption on CGT for disposal of unlisted Malaysia shares is effective from 1 January 2024 until 31 December 2028.

(6) Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers’ remuneration, expenses on maintenance of the register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10 per cent and a maximum of 25 per cent of the expenses.

(7) Sales and Service Tax (“SST”)

Sales tax will be chargeable on taxable goods manufactured in Malaysia by registered manufacturer or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable cost to the business. The rates for sales tax are nil, 5 per cent, 10 per cent or a specific rate whereas the rate for service tax is at 8 per cent for all prescribed taxable services with certain exceptional taxable services at 6 per cent.

Certain brokerage, professional, consultancy or management services obtained by the Fund may be subject to service tax at 8 percent.

Service tax will apply to any taxable service that is acquired by any business in Malaysia from a non-Malaysian service provider. In this connection, the Fund, being non-taxable person who acquire imported taxable services (if any) will need to declare its imported taxable services through the submission of prescribed declaration.

Service tax on digital services was implemented at the rate of 8 per cent. Under the service tax on digital services, foreign service providers selling digital services to Malaysian consumers are required to register for and charge service tax. Digital services are defined as services which are delivered or subscribed over the internet or other electronic network, cannot be delivered without the use of IT and the delivery of the service is substantially automated.

Furthermore, the provision of digital services has also been prescribed as a taxable service when provided by a local service provider. Hence, where the Fund obtains any of the prescribed digital services, those services may be subject to service tax at 8 percent.

The scope of Sales Tax and Service Tax has been expanded with effect from 1 July 2025, with the relevant gazette orders being issued. Certain financial services are currently exempted from service tax until further notice.

The scope of service tax is expanded to include financial services. An 8% service tax rate will be imposed on fee or commission-based services.

Exemption will be granted for certain financial services such as basic banking, interest or profit based Islamic financing, foreign exchange, capital market gains, etc. Additionally, exemptions will be available for shariah-compliant arrangements and service providers for Bursa Malaysia and Labuan.

With the expansion of service tax scope, fund management services will be subject to tax at 8 percent.

TAXATION OF UNIT HOLDERS

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent of the distributions received from the Fund. The income distribution from the Fund will carry a tax credit in respect of the Malaysian tax paid by the Fund. Unit Holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. Generally, no additional withholding tax will be imposed on the income distribution from the Fund; unless the Fund is an RMMF, in which case there is a WHT on distribution from interest income of a RMMF which are exempted under Paragraph 35A of Schedule 6 and distributed to non-individual Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions. Depending on the provisions of the relevant country's tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable against the relevant foreign tax.

Corporate Unit Holders, resident³ and non-resident, will generally be liable to income tax at 24 per cent on distribution of income received from the Fund. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit Holders.

Individuals and other non-corporate Unit Holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1 per cent to 30 per cent. Individuals and other non-corporate Unit Holders who are not resident in Malaysia will be subject to income tax at 30 per cent. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit Holders.

The distribution of exempt income by the Fund will be exempted from tax in the hands of the Unit Holders.

Any gains realised by Unit Holders (other than those in the business of dealing in securities, or companies habitually buying and selling investments, insurance companies or financial institutions) on the sale or redemption of the Units are treated as capital gains and will not be subject to income tax. This tax treatment will include in the form of cash or residual distribution in the event of the winding up of the Fund.

Unit Holders electing to receive their income distribution by way of investment in the form of new units will be regarded as having purchased the new Units out of their income distribution after tax.

Unit splits issued by the Fund are not taxable in the hands of Unit Holders.

Retail Money Market Fund ("RMMF")

Resident and non-resident corporate Unit Holders (other than individual Unit Holders), who receive income distributed from interest or profit³ income of a RMMF which are exempted under Paragraph 35A of Schedule 6, will be subject to WHT at the rate of 24 per cent.

For resident corporate Unit Holders, the WHT is not a final tax. The resident corporate Unit Holders will need to subject the income distributed from interest or profit³ income of a RMMF which are exempted under Paragraph 35A of Schedule 6 to tax in its income tax returns and the attached tax credit i.e. the 24 per cent WHT suffered will be available for set-off against the tax chargeable on the resident corporate Unit Holders.

For non-resident Corporate Unit Holders, the 24 per cent WHT on income distributed from interest or profit³ income of a RMMF which are exempted under Paragraph 35A of Schedule 6, is a final tax.

³ Resident companies with paid up capital in respect of ordinary shares of RM2.5 million and below and having an annual sales of not more than RM50 million will pay tax at 15% for the first RM150,000 of chargeable income, 17% for RM150,001 to RM600,000 with the balance taxed at 24% with effect from YA 2023.

The above shall not apply if more than –

- (a) 50% of the paid up capital in respect of ordinary shares of the company is directly or indirectly owned by a related company;
- (b) 50% of the paid up capital in respect of ordinary shares of the related company is directly or indirectly owned by the first mentioned company;
- (c) 50% of the paid up capital in respect of ordinary shares of the first mentioned company and the related company is directly or indirectly owned by another company.

"Related company" means a company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of the basis period for a YA.

Additional shareholding condition of not more than 20% of the paid up capital or capital contribution, at the beginning of a YA is directly own or indirectly by one or more:

- Companies incorporated outside of Malaysia, or
- individuals who are not Malaysian citizens,

which is required to be observed from YA 2024.
