4 THE FUND

This part of the Information Memorandum sets out details of the Manager's investment policies and the Fund's investment objective, strategy, permitted investments and investment restrictions.

4.1 Investment Objective

The Fund aims to achieve higher returns compared to the benchmark over a medium to long-term* period from investments in a diversified portfolio of USD-denominated fixed income securities.

** Note: The Manager regards 3 to 5 years as medium-term and more than 5 years as long-term.*

Any material changes to the Fund's investment objective would require the Unit Holders' approval PRIOR to the implementation of such changes and a supplementary/replacement Information Memorandum and supplemental deed will be lodged to the SC as soon as practicable.

4.1.1 Investor's Profile

The Fund is suitable for investors who:

- have medium to long term* investment horizon.
- want exposure primarily to USD-denominated fixed income securities only.
- seek to receive steady income distribution.
- have a moderate risk appetite.

** Note: The Manager regards 3 to 5 years as medium-term and more than 5 years as long-term.*

4.2 Asset Allocation

The Fund's asset allocation range is as follows:-

Asset Class	% of Fund's NAV
USD-denominated bonds, money market instruments and placement of deposits	Minimum 70%
Other permitted investments	Maximum 30%

4.3 Investment Strategy

The Fund seeks to achieve its objective by investing in a diversified portfolio of USD-denominated bonds and liquid assets. Its bond investments may vary from sovereign to quasi-sovereign and corporate (listed and unlisted).

The Fund's investment maturity profile is subject to active maturity structure management based on the interest rate outlook without any portfolio maturity limitation. This means, the Fund may invest in bonds, money market instruments, placement of deposits and other permitted investments with varying maturities.

The Fund may invest in USD-denominated fixed income securities where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commission (IOSCO).

The key markets where the Fund may seek to invest in are as follows but not limited to:

- United States of America
- United Kingdom
- Singapore
- Hong Kong
- Switzerland
- France
- Germany
- Australia
- Malaysia

Temporary Defensive Positions

The Manager may take temporary defensive positions that may be inconsistent with the Fund's investment strategy in attempting to respond to certain adverse conditions which include but not limited to adverse market, economic and political conditions, insufficient funds to form an efficient portfolio, periods of high redemptions or any other adverse conditions in order to preserve the NAV of the Fund. By taking a temporary defensive position, the Manager will reduce the Fund's investment exposure in fixed income securities and hold more cash. These cash will be placed in

deposits with licensed financial institutions in order to reduce the exposure during the market downturn and helps to preserve the Fund's capital and minimise losses.

The Manager is allowed to implement the temporary defensive positions up to a maximum of three (3) months from the date of the temporary defensive positions is implemented.

4.4 Fund Type, Category and Performance Indicator/Benchmark

Fund Type	Income
Fund Category	Fixed Income

4.5 Permitted Investments

**Note: This is only restricted to redeemable bonds. The Manager may sell the bond prior to the conversion or choose to convert into equity. In the event the Manager converts the bond into equity, the Manager will sell the said equity within three (3) months from the date of conversion.*

For the avoidance of doubt, the Manager may use hedging instruments such as forward foreign exchange contract, swaps (credit default swaps, interest swaps and currency swaps), future contracts and options to hedge the Fund.

Risks associated with these investments are as elaborated in Chapter 5.

4.6 Investment Restrictions and Limits

The Fund will be managed in accordance with the following investment restrictions and limits:-

Note: All sovereign fixed income securities will follow respective countries' debt rating by a recognised rating agency.

4.7 Valuation of the Fund

The Manager has the sole discretion of selecting the appropriate valuation methods to ensure the Fund's investments are valued at fair value in accordance with the Guidelines. The Manager will endeavour to adopt the following valuation methods based on a best effort basis.

Valuation of Listed Fixed Income Securities

Daily valuation of listed fixed income securities are based on the last done market price at the close of the exchange if reliable sources are available, otherwise the Manager will decide on the valuation based on a best effort basis in consultation with the Trustee and the Auditor of the Fund.

Valuation of Money Market Instruments

Money market instruments (which are less than one year to maturity) are valued based on an accretion method using a constant discount rate on cost or yield to maturity on cost, where applicable.

Valuation of Unlisted Fixed Income Securities

Valuation for investments in unlisted fixed income securities shall be carried out on the following valuation bases, listed in the order of priority:-

1. The daily value determined by reference to the Bloomberg Generic Composite Rate (BGN) average of the bid and offer Bloomberg Valuation Price (BVAL); or

2. At least weekly by reference to the average indicative price quoted by at least one (1) independent financial institution in the over-the-counter market selected by the Manager; or
3. The fair value as determined in good faith by the Manager, on methods or bases to be decided by the Manager at its sole discretion (subject to approval by Auditor of the Fund and the trustee).

4.8 Policy on Gearing

The Fund will not borrow cash or other assets in connection with its activities.

4.9.2 Termination by the Trustee

- (a) If the Manager has gone into liquidation, except for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee and the Relevant Authorities;
- (b) If, in the opinion of the Trustee, the Manager has ceased to carry on business; or
- (c) If, in the opinion of the Trustee, the Manager has to the prejudice of Unit Holders failed to comply with the provisions of this Deed or contravened any of the provisions of any Relevant Law;

the Trustee shall summon a meeting of Unit Holders in accordance with the provisions of the Deed for the purpose of seeking directions from the Unit Holders.

5 RISKS

It is important to note that investment in the Fund carries risks and the list of risks listed below may not be exhaustive. While every care will be taken by the Manager to mitigate the risk, Investors are advised that it is not always possible to protect investments against all risks.

Investors should consider and understand the risks of investing in the Fund before applying for Units.

Investors should note that the value of Units, and the income accruing to the Units, may fall or rise and that Investors may not get back their original investment.

5.1 General Risks

The following risks are general risks involved when investing in the Fund:

(a) Market Risk

The usual risks of investing and participating in listed and unlisted securities apply to an investment in the Units. Prices of securities may go up or down in response to changes in market factors such as uncertainties in the economy, political, social environment and the market's perception of securities. These may cause the price of Units to go up or down as the price of Units is based on the current market value of the investments of the Fund.

(b) Fund Management Risk

The performance of the Fund depends on, amongst other things, the experience and expertise of the Manager. Poor management of the Fund will jeopardise the investment of the Fund and subsequently, may lead to losses to Unit Holders.

The risk is reduced through the following:

- implementation of a consistent structured investment process; and
- establishment and implementation of stringent internal policies and procedures.

(c) Political Risk

The Fund is exposed to the local/foreign political situation or environment at all times. Any change or instability in this regard may more likely than not result in less than favourable implications on the Fund. For example, a change in political leadership or political stance which subsequently translates into changes or reforms in government economic or legislative policies, some of which may affect investors directly or indirectly, especially when there is a change from a business-friendly government and policy model to one which is less business friendly. This may result in situations such as increased transaction costs, taxes, administrative requirements and restrictions in investments or holding periods.

(d) Regulatory and Tax Risk

As long as the Fund continues to invest in a particular country, the Fund will be exposed to regulatory and taxation changes of that country and Malaysia. For example, the exchange control regulations, income tax treatment and withholding tax provisions imposed on the income and sales proceeds of the Fund's investments in different countries including Malaysia may change over time. Investors should not presume that the tax treatment of a particular investment will be the same in perpetuity. A change in the tax treatment of an investment of the Fund, may affect the Fund, in a positive or a negative way. The imposition of withholding taxes or an adverse change in the tax treatment of a particular investment would mean significantly lower returns for the Fund.

5.2 Specific Risks of the Fund

The Fund is susceptible to the following risks:

(a) Interest Rate Risk

Investments in debt securities are subject to the risk of interest-rate fluctuations. Prices of debt securities will normally move in the opposite direction of interest rates. A rise or fall in interest rates will cause a fall or rise respectively in prices of debt securities. The Fund may experience a capital loss or gain respectively should the debt securities be sold before maturity.

The Manager adopts a 'top-down' investment approach to ensure a thorough evaluation of macro-economic factors is undertaken in order to form an interest rate view. The Manager will develop the portfolio maturity structure based on their interest rate view to capitalise on expected movements in interest rates. In addition, it is also intended to have maturity diversification to ensure limited impact on the portfolio value in case of adverse changes in interest rate direction.

(b) Credit and Default Risk

This risk can be referred to:

(i) Issuer creditworthiness

This risk is intrinsic with the Fund's investments in bonds and refers to the issuer of the bonds creditworthiness and its expected ability to repay debt. Default happens when the issuer is not able to make timely payments of interest on the coupon

payment date or principal repayment on the maturity date. If default happens, this will cause a decline in the value of the defaulted bond and subsequently affect the Fund's NAV per Unit.

The Manager minimises the Fund's credit risk by adopting the following measures:-

- conducting thorough credit analysis before any investment to ascertain the creditworthiness of different issuers; and
- diversifying the portfolio by investing in different issuers, if possible.

(ii) Financial institutions creditworthiness

This risk refers to a financial institution that is a party to the trade or placement contract of the Fund, may default in its payment.

The Manager minimises the Fund's credit and default risk by conducting a thorough credit analysis on the financial institutions creditworthiness.

(c) Liquidity Risk

Liquidity risk is defined as the ease with which a security can be sold at or near its fair value depending on the volume traded on the market. This risk is more pertinent to a bond Fund in view that such investments are generally not as easily liquidated as compared to equities. In the event some of the bonds of the Fund are not actively traded, there is a risk the Manager may not be able to easily liquidate such investments and as a result, Investors may face difficulties in redeeming their Units.

Please refer Section 7.2.6 for details on suspension of Units redemption.

(d) Inflation/Purchasing Power Risk

Inflation can be described as increases of price level of goods and services and is commonly represented using the consumer price index. High inflation reduces the purchasing power of a fixed sum of money. In an inflationary environment, fixed rate securities are exposed to higher inflation risk than inflation-linked securities.

The Investor's investment in the Fund may not grow proportionately to the inflation rate. This will then decrease the Investor's purchasing power even though the investment in monetary terms may have increased.

(e) Counterparty Risk

The risk that an issuer of security, or a bank or financial institution that is a party to the trade or placement contract, may default in its payment.

The Manager minimises the risk by conducting a thorough credit analysis on the issuers and financial institutions to ascertain the creditworthiness of different issuers and financial institutions.

(f) Concentration Risk

The Fund is susceptible to the concentration risk. As the Fund has no limit restriction for deposits with any single financial institution, there is a possibility that the Fund may be exposed to a single financial institution.

The concentration risk is managed through the monitoring of credit analysis conducted on the financial institutions.

(g) Country Risk

If and when the Fund invests in foreign markets, the value of the assets of the Fund may also be affected by uncertainties such as currency repatriation restrictions, other developments in the law or regulations, and the political and economic conditions of the countries in which the Fund is invested in.

Careful consideration shall be given to risk factors such as liquidity, political and economic environment before any investments are made in any foreign country.

(h) Currency Risk

The majority of the Fund's assets (including cash) will be in USD given the Fund's strategy of investing primarily in USD-denominated assets. However, as the Fund is a Malaysian domiciled Fund, it will have RM liabilities (fees and expenses). This poses a currency risk to the investors as the exchange rate between RM and USD may fluctuate, hence affecting the NAV of the Fund.

To mitigate this risk, the Manager will closely manage adequacy of RM cash balances to meet the Fund's RM-denominated liabilities.

(i) Futures Contract Risk

The most prominent risk would be the effects of gearing. As the trading of futures is conducted on an initial margin basis, a relatively small price movement in a futures contract may result in an immediate and substantial loss or gain for the Investment Assets.

6 FEES, CHARGES AND PRICES

All fees, charges and expenses payable by the Unit Holder are subject to GST at a rate of 6% or such other prescribed rate as may be imposed from time to time, and incurred by the Unit Holder directly when purchasing or redeeming Units of the Fund and indirectly when investing in the Fund. The fees, charges and expenses disclosed in this Information Memorandum are exclusive of GST or any other taxes or duties that may be imposed by the Malaysian government or other Relevant Authorities from time to time.

6.1.4 Other Fees and Charges

All charges including GST, for instance bank charges, telegraphic transfer charges and any other charges and expenses incurred for subscription and redemption by Unit Holders shall be borne by the Unit Holders.

For the avoidance of doubt, the Fund will bear any cost and expenses incurred for distribution re-invested.

The Manager, with the consent of the Trustee, reserves the right to impose other charges.

6.2 Fees and Expenses Indirectly Incurred

Below are the fees and expenses indirectly incurred by investors when investing in the Fund:

(a) Annual Management Fee

Up to 0.80% per annum of the NAV of the Fund calculated daily and payable on a monthly basis.

(b) Annual Trustee Fee

Up to 0.045% per annum of the NAV of the Fund calculated daily and payable on a monthly basis subject to a minimum of RM12,000 per annum or any other lower amount as may be agreed between the Trustee and the Manager (excluding foreign custodian fees and charges).

6.3 Other Fees and Charges

Direct Expenses Related to the Funds

Below is a list of expenses directly related to the Fund, which includes:

- Auditors' fee and charges;
- Tax Adviser's fee and charges;
- Taxes and duties charged or withheld by the government and any authorities in Malaysia or elsewhere;
- Printing and delivery of tax vouchers;
- Printing and delivery charges of monthly statement, quarterly reports, annual reports and any other reports required by the Relevant Authorities to be issued by the Manager in relation to the Fund;
- Valuation fee, charges and expenses required for valuation of any investment of the Fund by any independent valuers for the benefit of the Fund;
- Any tax such as GST and/or other indirect or similar tax now or hereafter imposed by law or required to be paid in connection with any costs, fees and expenses incurred by the Fund; and
- Any other charges permitted by the Deed.

The Manager, for any reason at any time, may reduce or waive the amount of any fees (except for the Trustee fees) or other charges payable by the Unit Holder in respect of the Fund, either generally (for all Unit Holders) or specifically (for any particular Unit Holder) and for any period of periods of time at its absolute discretion.

6.4 Rebates and Soft Commissions

Soft commissions received, if any, will be retained by the Manager if the goods and services are of demonstrable benefit to the Unit Holders, such as data and quotation services, computer software and research material incidental to the investment management activities of the Fund. Cash rebates, if any, will be directed to the account of the Fund.

7 Transaction Information

7.1 Calculation of NAV of the Fund

The NAV of the Fund means the total value of the Fund's investments, assets and properties less the Fund's expenses or liabilities incurred or accrued for the day.

Below is an illustration on how the NAV of the Fund is calculated.

If the investments of the Fund is USD240,772,498, other assets of the Fund including cash is USD18,668,352 and the liabilities of the Fund is at USD2,858,986, as at the Valuation Point, the NAV of the Fund will be:

	USD
Securities Investment	240,772,498
Add : Assets (including cash)	18,668,352
	<hr/>
	259,440,850
Less : Liabilities	2,858,986
	<hr/>
	256,581,864
NAV before deducting Management Fee and Trustee Fee for the day	256,581,864
Less : Trustee Fee for the day (up to 0.045% per annum calculated based on the NAV subject to a minimum of RM12,000 per annum) <u>256,581,864 x 0.045%</u> 365	316
GST on Trustee Fee (316 x 6%)	19
Management Fee for the day (at 0.80% per annum calculated based on the NAV) <u>256,581,864 x 0.80%</u> 365	5,624
GST on Management Fee (5,624 x 6%)	337
	<hr/>
NAV of the Fund	256,575,568
	<hr/>

NAV per Unit

The NAV per Unit is calculated by dividing the total NAV of the Fund by the total number of Units in circulation as at the Valuation Point.

Below is an illustration on how the NAV per Unit of the Fund is calculated:

Say for example the number of Units in circulation for the Fund is 200,000,000 Units and the NAV of the Fund is USD256,575,568 at the point of valuation, the NAV per Unit will be:

NAV of the Fund	:	<u>USD256,575,568</u>
Number of Units in Circulation	:	<u>200,000,000 Units</u>
NAV per Unit	:	<u>USD1.2829</u>

Pricing of Units

Based on the above illustration, assuming the NAV per Unit is USD1.2829 on 10 October 2016. If a Unit Holder intends to invest a sum of USD250,000, the amount the Unit Holder will have to pay as Sales Charge inclusive of GST will therefore be:

Amount invested	:	USD250,000
Sales Charge	:	2.00% of the NAV per Unit
NAV per Unit	:	USD1.2829
Number of Units purchased by Unit Holder: USD250,000 / USD1.2829 = 194,871 Units		

Amount Invested	:	<u>USD</u> 250,000
Add: Sales Charge (2.00% x USD1.2829 x 194,871)	:	5,000
Add: GST 6% of Sales Charge (6.00% x USD5,000)	:	300
Add: Remittance Charge	:	25
Add: GST of Remittance Charge (6.00% x USD25)	:	2
Add: Bank Agent Charge	:	30
Add: GST of Bank Agent Charge	:	2
TOTAL Amount Paid by Unit Holder		----- 255,359 =====

Please note that the calculation set out above is for illustration purpose only.

For the purpose of redemption illustration, assuming the NAV per Unit is USD1.2990 on 20 October 2016. If a Unit Holder intends to redeem sum units of 300,000 the amount the Unit Holder will receive therefore be:

Units redeemed	:	300,000
NAV per Unit	:	USD1.2990
Amount redeemed by Unit Holder: 300,000 x USD1.2990 = USD389,700		

Amount Redeemed	:	<u>USD</u> 389,700
Less: Remittance Charge	:	25
Less: GST of Remittance Charge (6.00% x USD25)	:	2
Less: Bank Agent Charge	:	30

Less: GST of Bank Agent Charge (6.00% x USD30)	:	2
TOTAL Amount Received by Unit Holder		389,641
		=====

Please note that the calculation set out above is for illustration purpose only.

Pricing Basis

The NAV per unit of the Fund is computed at Valuation Point i.e. before 8:00 p.m. and the price per Unit will be made available to Unit Holders not later than 11:00 a.m. on the next Business Day.

During Initial Offer Period

During the Initial Offer Period, the offer price is set at USD1.00 per Unit.

After Initial Offer Period

The Manager is adopting the single pricing method in calculating a Unit Holder's investment for subscription and redemption of Units. The pricing for subscription and redemption is the NAV per Unit of the Fund and shall be determined based on forward pricing* after a request to subscribe or redeem is received by the Manager in a proper form.

- * Note: (i) Forward pricing for subscription is effected at the NAV per Unit of the Fund calculated at the end of each Business Day.
(ii) Forward pricing for redemption is effected at the NAV per Unit of the Fund calculated on the fifth (5th) Business Day from the Redemption Processing Date (inclusive).

The Manager reserves the right not to accept any application either wholly or in part. If your application is not accepted, the application money will be refunded, but without any interest accruing.

7.2.2 How to Redeem

The application for redemption of Units can be made on any Business Day by submitting a completed Redemption Form to the Manager at the following address: -

Opus Asset Management Sdn Bhd (414625-T)
B-19-2, Northpoint Offices, Mid Valley City,
No.1, Medan Syed Putra Utara,
59200 Kuala Lumpur
Telephone: + 60 3 2288 8882 Facsimile: + 60 3 2288 8889

The processing of applications for redemption of Units shall be made before 4:00 p.m. on every Business Day. Units will be redeemed and effected at the NAV per Unit of the Fund calculated on the fifth (5th) Business Day from the Redemption Processing Date (inclusive).

For any Redemption Form received after 4:00 p.m., the Redemption Processing Date will be the next Business Day.

The payment for redemption only in USD will be made within six (6) Business Days from the date where the NAV per Unit of the Fund is effected (inclusive).

For example 1:

Assuming no public holidays in October 2016.

Investor submitted Redemption Form (before 4.00 p.m.)	:	10 October 2016 (Monday)
Redemption Processing Date	:	10 October 2016 (Monday)
NAV per Unit of the Fund effected	:	14 October 2016 (Friday)
Redemption payment in USD not later than	:	21 October 2016 (Friday)

For example 2:

Assuming no public holidays in October 2016.

Investor submitted Redemption Form (after 4.00 p.m.)	:	10 October 2016 (Monday)
Redemption Processing Date	:	11 October 2016 (Tuesday)
NAV per Unit of the Fund effected	:	17 October 2016 (Monday)
Redemption payment in USD not later than	:	24 October 2016 (Monday)

There is no limit on the frequency of redemptions that may be made by any Investor, except that each redemption request must be for a minimum of 5,000 units. A Unit Holder cannot revoke a redemption request duly received and accepted by the Manager without the prior approval of the Manager.

Redemption Forms are available upon request from the Manager at the address of the Manager as set out in this Information Memorandum.

In the event a redemption of Units by a Unit Holder would result in that Unit Holder holding less than 5,000 units, the redemption request will be deemed to be in respect of all the Units held by the Unit Holder. However, the Manager reserves the right to waive this requirement in respect of the Fund, either generally (for all Unit Holders) or specifically (for any particular Unit Holder) at its absolute discretion.

7.2.3 Transfer of Units

Units are transferable subject to the Manager's discretion and the transferee being more than 18 years of age at the time of transfer and an Investor. The application for the transfer must be made in the prescribed form which is available upon request at the office of the Manager as set out in this Information Memorandum. The duly completed and signed form must be accompanied by such evidence as may be required by the Manager to prove the title of the transferor and his right to transfer the Units.

There are no fees charged for the transfer of Units.

7.2.4 Switching

Switching is not available for this Fund.

7.2.5 Special Redemption Mechanism

In a situation where the Manager receives a high amount of total redemption requests for the day i.e. exceeds 20% of the Fund's NAV as at the Redemption Processing Date, the Manager shall then be entitled to base the calculation of redemption on several Valuation Points, as determined by the Manager from time to time.

If the mechanism were to be implemented, the Manager will sell off assets of the Fund on a staggered basis. This would result in the calculation of the redemption proceeds being based on several Valuation Point computed with each redeeming Unit Holder being paid proportionately in accordance with the quantum of his redemption request calculated at the several Valuation Point until the sell down is complete.

For example:

- Assuming, no public holiday in September 2016 as per calendar below:

SEPTEMBER 2016						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	

- The Fund's NAV is USD330 million.
- On 5 September 2016, total redemption requested receive before 4.00 p.m. is 100 million units @ USD1.1515 per unit = USD115.15 million, which is more than 20% of the Fund's NAV. These redemption requests are from:
 - (i) Unit Holder A = 50 million units
 - (ii) Unit Holder B = 30 million units
 - (iii) Unit Holder C = 20 million units
- On 6 September 2016, no redemption request received.
- On 7 September 2016, one redemption request received from Unit Holder D which is 3.5 million units.
- Thereafter, no redemption requests received for the month.

Based on the above assumption, the table below illustrates how the special redemption mechanism works.

Redemption Processing Date (a)	Unit Holder (b)	Special Redemption Mechanism Units (c)	Date and Price of NAV per Unit of the Fund effected (d)	Redemption Proceed (e) = (c) x (d) USD	Redemption Proceed Payment Date not later than (f)
Day 1 5 Sept 2016	A	12,500,000	9 Sept 2016 @ USD1.1515	14,393,750	16 Sept 2016
	B	7,500,000		8,636,250	
	C	5,000,000		5,757,500	
Day 2 6 Sept 2016	A	12,500,000	12 Sept 2016 @ USD1.1503	14,378,750	19 Sept 2016
	B	7,500,000		8,627,250	
	C	5,000,000		5,751,500	
Day 3 7 Sept 2016	A	12,500,000	13 Sept 2016 @ USD1.1488	14,360,000	20 Sept 2016
	B	7,500,000		8,616,000	
	C	5,000,000		5,744,000	
Day 4 8 Sept 2016	A	12,500,000	14 Sept 2016 @ USD1.1471	14,338,750	21 Sept 2016
	B	7,500,000		8,603,250	
	C	5,000,000		5,735,500	
Day 5 9 Sept 2016	D	3,500,000	15 Sept 2016 @ USD1.1462	4,011,700	22 Sept 2016

In order to meet these redemption requests, the Manager will base on several Valuation Points, i.e. in this example, the Manager will take four (4) Business Day to liquidate the investments of the Fund for Unit Holders A, B and C.

The Redemption Processing Date for Unit Holder D is also affected and is based on Day 5 instead of Day 3, as the Manager will need to complete the sell off assets of the Fund for Unit Holders A, B and C accordingly. The redemption proceeds of Unit Holders A, B and C will be paid proportionately in accordance with the quantum of his redemption request calculated at several Valuation Points, as shown in column (e) of the above table.

In the event the Manager invokes special redemption mechanism, Unit Holder will be notified (via email or handphone) on the day the Manager receives the application for redemption of Units. Unit Holder may also opt to withdraw such application on the same day.

Unit Holder will be notified on such redemption mechanism via their monthly statement accordingly.

However, the Manager may only invoke this mechanism when market conditions are such that it would not be possible to liquidate assets of the Fund at a reasonable price or prices beneficial to the Fund without jeopardising the whole investment portfolio of the Fund. Other factors that may also affect the decision of the Manager are, amongst others, as follows:

- Liquidity of a particular investment;
- Aggregate prices for disposal;
- Amount of assets to be disposed of; and
- Other investment limits and restrictions of the Fund.

7.2.6 Suspension

The Manager (upon consultation with the Trustee) may request the Trustee to suspend the sale and redemption of Units where the interest of the Unit Holders is materially affected or where there is good or sufficient reason to do so, having regard to the interest of the Unit Holders or potential Unit Holders.

The Manager (upon consultation with the Trustee) may request the Trustee to suspend the sale and redemption of Units where it would be impractical for the Manager to calculate the NAV due to:

- (i) the closure of a stock exchange or trading restrictions imposed by the stock exchange;
- (ii) an emergency or other state of affairs;
- (iii) the realization of investments of the Fund not being able to be effected at prices which could be realized if the investments were realized in an orderly fashion over a reasonable period in a stable market; or
- (iv) the existence of any state of affairs which in the opinion of the Manager, might prejudice the interests of the Unit Holders as a whole or the assets of the Fund.

If at any time the appointment of the Trustee is terminated and a new trustee has not been appointed yet, the sale and redemption of Units will be suspended until a new trustee has been appointed.

The period of suspension will not exceed thirty (30) days, or such other period as permitted under the Relevant Laws.

All redemption requests or application for Units received during the suspension period are deemed to have been received on the Business Day after the suspension ceases. Any suspension shall be in accordance with the Deed.

7.3 Other Information

7.3.1 Income Distribution and Reinvestment Policies

Subject to the availability of income, the Fund aims to distribute income at least once a year.

Distribution, if any, would automatically be reinvested based on the NAV per Unit at the income payment date, which is two (2) Business Days after the distribution date. There is no sales charge imposed for such re-investment of Units.

7.3.2 Cross Trades

To provide more liquidity in the dealing of securities, the Manager may carry out transactions between the Fund and investment portfolios its other customers ("cross-trades") and combine the trade orders for the Fund with orders for investment portfolios of its other customers ("block trades"), provided always that any such cross-trades or block trades are conducted on a best execution basis and are no less favourable to the Fund when compared to an arm's length transaction between independent parties.

The Manager shall have full discretion to determine the price (or yield) on such trades by taking into consideration factors such as broker's valuation, bond pricing agencies, market quotes, odd lot trades and market condition. The Manager will decide the price which the Manager believes to be the fair price to the seller, who will provide the securities in time of shortage and the buyer who will provide the liquidity in cash in time of seller who wants to liquidate the securities or the portfolio. All cross-trades or block trades shall be done in compliance with the Relevant Laws.

7.3.3 Unclaimed Moneys Policy

Unclaimed moneys, other than unclaimed income, will be filed with the Registrar of Unclaimed Moneys after the lapse of one year from the date of payment. Thereafter, the amount represented by such unclaimed moneys will be paid to the Registrar of Unclaimed Moneys in accordance with the Unclaimed Moneys Act, 1965.

7.3.4 Death, Legal Disability

If a Unit Holder dies or becomes subject to a legal disability such as bankruptcy or insanity, only the survivor who is not a minor (in the case of joint Unit Holders) or legal personal representative (in any other case) will be recognised as having any claim to the Units registered in the Unit Holder's name.

A trustee, executor or administrator of the estate of any deceased person who was registered or beneficially entitled to be registered as a Unit Holder may become registered as the Unit Holder in respect of the Units of the deceased person as trustee, executor or administrator of that estate and will, in respect of such Units, be entitled to the same rights as he would have been entitled to if the Units of the deceased person had remained registered in the name of the deceased person.

7.3.5 Anti-Money Laundering, Anti-Terrorism Financing and Proceeds of Unlawful Activities Act 2001

In order to comply with regulations aimed at the prevention of money laundering, the Manager may require prospective Investors to provide evidence to verify their identity and the source of payment. Accordingly, the Manager reserves the right to request such information as it considers necessary to verify the identity of a prospective Investor. Enhanced due-diligence process will be conducted on high risk clients which would require the Manager's senior management review and approval, where applicable.

The Manager may delay or refuse to accept any subscription application without providing any reason for doing so if a prospective Investor delays in producing or fails to produce any information required by the Manager for the purpose of verification and, in that event, any funds received by the Manager will be returned without interest to the account from which the moneys were originally debited.

The Manager shall report any suspicious transactions to the Relevant Authorities.

7.3.6 Register of Unit Holders

The Manager will keep a register of Unit Holders at the office of the Manager. The register of Unit Holders will contain, amongst others, the names and addresses of Unit Holders, the number of Units held by each Unit Holder and the dates on which Units were issued to such Unit Holders.

Any Unit Holder may inspect the register on any Business Day at any time during ordinary business hours of the Manager and obtain such information pertaining to his/its Units as permitted under the Relevant Laws. Any Unit Holder may request the Manager to furnish him/it with an extract from the register in so far as it relates to his/its name, address, number of Units held by him/it and amounts paid on those Units and the Manager will, upon payment in advance of a reasonable fee as it may require, cause any extract so requested to be sent to that Unit Holder within twenty-one (21) days or such other period which the SC considers reasonable, commencing on the day after the request is received by the Manager.

The contents of the register of Unit Holders will be prima facie evidence of any matters contained therein.

The Trustee is entitled to be indemnified out of the assets of the Fund for any liability incurred by the Trustee in performing or exercising any of its powers or duties in relation to the Fund. This indemnity is in addition to any indemnity allowed by law. However, it does not extend to liabilities arising from a breach of trust or failure to show the due care and diligence required of the Trustee having regard to its powers, authorities, and discretions under the Deed.

11.7 Material Litigation and Arbitration

Save for the suits mentioned herein below, the Trustee is not engaged in any material litigation as plaintiff or defendant and the Trustee is not aware of any proceedings, pending or threatened or of any facts likely to give rise to any proceedings which might materially and adversely affect its financial position or business.

1. The bondholders of the Al-Bai Bithaman Ajil ("ABBA") bonds ("bondholders") issued by Pesaka Astana (M) Sdn Bhd ("PASB") have sued PASB for its failure to meet its bonds payment obligations under Kuala Lumpur High Court Civil Suit No. D5(D6)-22-1810-2005 ("ABBA Suit") and cited the Trustee as one of 12 co-defendants in the ABBA Suit. The claim in the ABBA Suit is for RM149,315,000.00 or any other sum that the Court deems fit. The other defendants in the ABBA Suit include among others the Arranger, PASB's Chief Executive Officer, one of PASB's directors and associate companies of the Chief Executive Officer and the said director. The Trustee has defended the ABBA Suit and its trial has concluded.

The Trustee had appealed against the decision made by the High Court on 30 June 2010 in respect of the ABBA Suit in awarding judgement against it. The appeals proceeded on 22, 23, 26, 27, 28, 29 and 30 September 2011 and 3 October 2011. The Court of Appeal had on 8 November 2011 awarded the Trustee and the Arranger a limited indemnity against PASB, PASB's Chief Executive Officer, one of PASB's directors and associate companies of the Chief Executive Officer and the said director (collectively "PASB And Their Associated Defendants") but found the Trustee and the Arranger equally liable to the bondholders. The Federal Court had on 5 April 2012 granted the Trustee leave to appeal to the Federal Court against certain parts of the decision of the Court of Appeal ("Federal Court Appeal"). The Federal Court Appeal was heard on 6, 7, 8, 20, 21 and 23 November 2012 and on 2, 3 and 4 January 2013. The hearing dates of 17 to 19 October 2012 and 19 November 2012 were vacated.

The Federal Court had on 10 February 2014 delivered its decision ("Decision") wherein it had, among others, allowed the Trustee a full indemnity against PASB And Their Associated Defendants and reduced the judgement sum against the Trustee to approximately RM107 million without apportionment of liability against the Arranger.

PASB's Chief Executive Officer and associate companies of the Chief Executive Officer (collectively the "Pesaka Defendants") had filed an application for the Federal Court to grant leave to review its Decision against them ("Review Application 1"). On 29 September 2014, the Federal Court allowed the Pesaka Defendants' application to withdraw Review Application 1.

Most of the bondholders had filed an application for the Federal Court to grant leave to review its Decision in finding the Arranger not liable ("Review Application 2"). On 29 September 2014, the Federal Court dismissed Review Application 2.

2. Connected to the ABBA Suit, Amanah Short Deposits Berhad [now MIDF Amanah Investment Bank Berhad ("MIDF")], a Noteholder of the Combined Commercial Papers and/or Medium Term Notes/Letters of Credit/Financial Guarantee Facilities ("CP/MTN") totalling RM13 million and issued by PASB, has sued PASB for full payment under the CP/MTN arising from a cross-default by PASB under its ABBA bonds under Kuala Lumpur High Court Civil Suit No. D2-22-1085-2006 ("CP/MTN Suit"). The Trustee was cited as one of 5 co-defendants in the CP/MTN Suit. The claim in the CP/MTN Suit is for RM13 million or any other sum that the Court deems fit and damages. The other defendants in the CP/MTN Suit are the Arranger, PASB's Chief Executive Officer and one of PASB's directors. MIDF withdrew its claim against the Arranger in November 2014. The Trustee has defended the CP/MTN Suit and trial has concluded. On 14 August 2015, the High Court dismissed MIDF's claim against the Trustee ("Dismissal") and found PASB's Chief Executive Officer and one of PASB's directors liable for MIDF's loss. MIDF had filed a Notice of Appeal against the Dismissal ("Appeal"). The Appeal was heard on 28 July 2016. The Court of Appeal has reserved its decision on the Appeal.

The Trustee has obtained leave of the court to proceed with the actions against PASB given that further to an unrelated suit a provisional liquidator had been appointed against PASB. The Trustee has also obtained leave of the court to proceed with the actions against PASB following the court's order to wind-up PASB further to the unrelated suit.

In any event, any successful claim that may be established against the Trustee will be covered by the Trustee's insurer and/or Malayan Banking Berhad as the ultimate holding company of the Trustee. As such, the ABBA Suit and the CP/MTN Suit will not materially affect the business or financial position of the Trustee.

3. Several holders of the bonds ("Bondholders") issued by Aldwich Berhad [In Receivership] ("Aldwich") have sued Aldwich for its failure to settle its indebtedness to the Bondholders following the default of the said bonds in 2010 and cited the Trustee as one of 6 co-defendants under Kuala Lumpur High Court Civil Suit No. D-22NCC-1622-11/2012 ("Aldwich Bondholders' Suit"). The claim against the Trustee is for the sum of RM177,248,747.31 or any other sum that the Court deems fit. The other defendants are the holding company of Aldwich, the Chief Executive Officer of the holding company of Aldwich, the Security Agent and the Reporting Accountant. The Trustee does not admit liability to the Aldwich Bondholders' Suit and has defended it. Trial has concluded and the decision date will be notified by the Court. The Aldwich Bondholders' Suit will not materially affect the business or financial position of the Trustee."

**TAXATION OF THE FUND OFFERED UNDER THE INFORMATION MEMORANDUM AND
UNIT HOLDERS**

Dear Sirs,

This letter has been prepared for inclusion in the Information Memorandum in connection with the offer of units in the Opus USD Fixed Income Fund ("the Fund").

The taxation of income for both the Fund and the unit holders are subject to the provisions of the Malaysian Income Tax Act 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of Fund bodies in Malaysia.

TAXATION OF THE FUND

The Fund will be regarded as resident for Malaysian tax purposes since the trustee of the Fund is resident in Malaysia.

(1) Foreign Investments

Income of the Fund in respect of overseas investment is exempt from Malaysian tax by virtue of Paragraph 28 of Schedule 6 of the Act and distributions from such income will be tax exempt in the hands of the unit holders. Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. However, any foreign tax suffered on the income in respect of overseas investment is not tax refundable to the Fund in Malaysia.

The foreign income exempted from Malaysian tax at the Fund level will also be exempted from tax upon distribution to the unit holders.

(2) Domestic Investments

(i) General taxation

Subject to certain exemptions, the income of the Fund consisting of dividends, interest income (other than interest income which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments by the Fund will not be subject to Malaysian income tax.

(ii) Dividend and other exempt income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refunds available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Fund may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund will not be taxable on such exempt income.

Interest or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debentures¹ or sukuk², other than convertible loan stocks, approved or authorized by, or lodged with, the Securities Commission³ Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest income derived from the following investments is exempt from tax:

- (a) Interest income paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013 with effect from 30 June 2013;
- (b) Interest income paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002 with effect from year of assessment (“YA”) 2015;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest income paid or credited by Malaysia Building Society Berhad⁴ with effect from YA 2015.

The interest or discount income exempted from tax at the Fund’s level will also be exempted from tax upon distribution to the unit holders.

¹ Structured products approved by the Securities Commission Malaysia are deemed to be “debenture” under the Capital Markets and Services Act, 2007 and fall within the scope of exemption.

² Pursuant to the Finance Act 2015 which was gazetted on 30 December 2015, the words “Islamic Securities” were substituted with the words “sukuk”.

³ Pursuant to the Finance Act 2015 which was gazetted on 30 December 2015, the words “approved by the Securities Commission” were substituted with the words “approved or authorized by, or lodged with, the Securities Commission”.

⁴ Pursuant to the letters from Ministry of Finance Malaysia dated 11 June 2015 and 16 June 2015.

(3) Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers' remuneration, expenses on maintenance of the register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10 per cent and a maximum of 25 per cent of the expenses.

(4) Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

(5) Real Property Gains Tax ("RPGT")

With effect from 1 January 2014, any gains on disposal of real properties or shares in real property companies⁵ would be subject to RPGT as follows:-

Disposal time frame	RPGT rates
Within 3 years	30%
In the 4 th year	20%
In the 5 th year	15%
In the 6 th year and subsequent years	5%

(6) Goods and Services Tax ("GST")

GST has been implemented effective 1 April 2015 at the rate of 6% to replace the existing sales tax and service tax. Based on the guideline⁶ issued, the Fund, being collective investment vehicles, will be making exempt supplies. Hence, the Fund is not required to register for GST purposes. However, the Fund will incur expenses such as management fees, Trustee fees and other administrative charges which will be subject to 6% GST. The 6% input tax incurred on such expenses will not be claimable by the Fund and represents a cost to the Fund.

5 A real property company is a controlled company which owns or acquires real property or shares in real property companies with a market value of not less than 75 per cent of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

6 Pursuant to GST Guide on Fund Management (as at 11 April 2016 issued by the Royal Malaysian Customs).

TAXATION OF UNIT HOLDERS

Unit holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent of the distributions received from the Fund. The income distribution from the Fund will carry a tax credit in respect of the Malaysian tax paid by the Fund. Unit holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. No additional withholding tax will be imposed on the income distribution from the Fund.

Non-resident unit holders may also be subject to tax in their respective jurisdictions. Depending on the provisions of the relevant country's tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable against the relevant foreign tax.

Corporate unit holders, resident⁷ and non-resident, will generally be liable to income tax at 24 per cent on distribution of income received from the Fund. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these unit holders.

Individuals and other non-corporate unit holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1 per cent to 28⁸ per cent. Individuals and other non-corporate unit holders who are not resident in Malaysia will be subject to income tax at 28⁹ per cent. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these unit holders.

The distribution of exempt income and gains arising from the disposal of investments by the Fund will be exempted from tax in the hands of the unit holders.

Any gains realised by unit holders (other than dealers in securities, insurance companies or financial institutions) on the sale or redemption of the units are treated as capital gains and will not be subject to income tax. This tax treatment will include gains in the form of cash or residual distribution in the event of the winding up of the Fund.

Unit holders electing to receive their income distribution by way of investment in the form of new units will be regarded as having purchased the new units out of their income distribution after tax.

Unit splits issued by the Fund are not taxable in the hands of unit holders.

7 Resident companies with paid up capital in respect of ordinary shares of RM2.5 million and below will pay tax at 19 per cent for the first RM500,000 of chargeable income with the balance taxed at 24 per cent.

9 Pursuant to the Finance Act 2015 which was gazetted on 30 December 2015, the income tax rate for non-resident individuals has been increased to 28 per cent effective YA 2016.

The issuance of units by the Fund is an exempt supply. The selling or redemption of the units is also an exempt supply and therefore is not subject to GST. Any fee based charges related to buying of the units such as sales or service charge or switching fees will be subject to GST at a standard rate of 6%.
